WC Docket no. 10-90
Response to FCC orders on Sandwich isles Communications

Dear FCC Commissioners,

It is time the FCC uphold their duty and obligation to native communities, "tribes." The Commissioners who have overstepped and caused this hardship on our native community have broken this trust obligation. Sandwich Isles Communications (SIC) is the only company to acknowledge Hawaiian Home Lands (HHL) and their need for basic services that the rest of the state took for granted. The threat of terminating SIC's study area waiver is again in direct conflict with the FCC's obligation to look out for the welfare of tribal members. All the residents of Hawaiian Home Lands (HHL) whose services are being threatened by the FCC are tribal members as is the founder of SIC, the only company willing to serve the HHL. There has been no waste, fraud or abuse on SIC's side. The abuse is coming from the FCC by illegally creating rules that only apply to SIC. It is not the job of a government regulatory agency to decide which company they don't like and create rules that will only apply to said company just to run them out of business. It is obvious from the orders published and the appeal published that the FCC has disregarded all rational thought and is just out to kill SIC and all the good and honorable work that they have done. I ask that the new Commission right the wrongs of the last Commission by maintaining SIC's study area waiver to keep SIC our service provider.

Respectfully,

Chanelle Alapai
