RE: Public Comment on WT Docket #16-421
(Streamlining Deployment of Small Cell Infrastructure by Improving Wireless Facilities Siting Policies, petition by Mobilite, LLC.)

DOCKET FILE COPY ORIGINAL

Dear Sir/Madame:

The Borough of Kutztown, Pennsylvania, is a recognized government under the Constitution of the Commonwealth of Pennsylvania. Local governments attain their constitutional authority because it is widely recognized that issues of local concern are best understood and resolved within a municipality.

Our borough government does not believe that protecting and preserving the provisions of our Borough Comprehensive Plan are necessarily in conflict with the goals of businesses seeking to operate in the borough.

However, we prioritize the best interest of our community and believe that the only way we can fulfill our responsibilities and safeguard our community is to retain the right to have a legal voice in proposed business developments affecting the borough.

Our borough government does understand that the field of wireless communications is growing rapidly and we are committed to adjusting to these needs in a responsible manner. Thank you for this opportunity to have our comment included in your considerations.

Respectfully submitted,

Kevin Snyder
Borough Council President
