Nigri International Shluchim Online School

The Shluchim Online School was founded in 2006 with one core concept: to provide a viable means of education to the children of shluchim in remote areas. For forty years, shluchim in these communities had faced hard choices on how to educate their own children.

With a humble beginning of four families, the school quickly grew into a vibrant center of online learning via live audio/video Internet classrooms. Renamed the Nigri International Shluchim Online School after Lilian & Meyer Nigri joined us with their significant endowment in 2008, our devoted staff now provide high-quality Jewish education to 650-plus children of shluchim in over 200 cities and towns across the globe. We also offer exciting afterschool and extracurricular projects, regional reunions and much, much more.

For more information, registration or classes, please visit the school website using the links below.
