RE: Proceeding No. 14-58

Pursuant to applicable provisions of 47 C.F.R. §543.13 and §54.422, enclosed is the 2016 Form 481 (Carrier Annual Reporting Data Collection Form) for RT Communications, Inc. (RT) study area code 512251.

The financial information that has been redacted from section 3005 of Form 481 and the applicable attachments are not readily ascertainable through a public source or documents in the public domain. There is independent economic value in the financial data and if this information were revealed to a third party the data could be used to expose potential economic and operational vulnerabilities or opportunities, which competitors could exploit. RT has processes in place to protect this financial information and does not disclose the information to the public.

Included with this filing I have attached a file for RT reporting Affiliate Companies Line 800. We did not attach this item to our initial filing we did yesterday on the 26th. In addition are two revised attachments to replace two we have previously submitted. We have revised our annual report to reflect the Redacted-For Public Inspection stamp and the 5 year progress report now includes maps that were not attached to the first file.

Should you have any questions, please contact me via email (mike.dolezal@rangetel.coop) or by phone 406-347-2226.

Sincerely,

Mike Dolezal
