Re: Verizon Certification of Network Changes, CC Docket No. 96-98, CFR 47 Sections 51.325 – 51.335

Dear Ms. Dortch:

Pursuant to Sections 51.325 - 51.335 of the Commission's rules, Verizon submits the attached Certification of Public Notice of Network Change(s) under rule 51.333(a). Specifically, Verizon is providing notification of the network changes that will enable delivery of the calling party number (CPN) to the called party through Caller ID technology, pursuant to applicable waiver of Caller ID blocking requirements from the Federal Communications Commission and the New York Public Service Commission, even where a CPN blocking option has been activated by the caller.

Please contact me should you need any further information.

Sincerely,

CERTIFICATION OF PUBLIC NOTICE(s) OF NETWORK CHANGE UNDER RULE 51.329(a)

On July 15, 2016, the following Public Notice of Network Change has been made by Verizon pursuant to Code of Federal Regulation 47, Subsections 51.325 – 51.335.

Implementation Date: On or after **August 26, 2016**

Description of the Planned Network Change(s):
Verizon New York Inc. is making network changes that will enable delivery of the calling party number (CPN) to the called party through Caller ID technology even where a CPN blocking option has been activated by the caller. At this time, these network changes are being implemented only for one New York customer, a volunteer ambulance service, and only for calls to the emergency telephone numbers of that customer. The customer has obtained waivers of Caller ID blocking requirements from the Federal Communications Commission and the New York Public Service Commission. In the future, Verizon New York Inc. may be required to implement this network change for other similarly-situated customers that obtain waivers of Caller ID blocking requirements from the Federal Communications Commission and the New York Public Service Commission.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):
Service providers and any other affected carriers will need to be aware that their customers' CPN will be passed on calls to certain emergency service telephone numbers even though their customer has activated a CPN blocking option. The delivery of their customers' CPN to the called party where a CPN blocking option has been activated will only occur where such delivery has been required or authorized by appropriate regulatory authorities.

Planned Network Change(s) Will Occur at the Following Location(s):
