Notice of Provision of Consumer Broadband Only Loop Service On A Permissive Detariffed Basis

CC Docket No. 02-33

The Federal Communications Commission in its March 30th, 2016 Rate of Return Reform Order established revised cost allocation procedures to provide support for broadband-capable network loop costs. Therein, the Consumer Broadband Only Loop (CBOL) rate was established as means of recovering a portion of the loop costs associated with providing broadband only service. The Federal Communications Commission afforded carriers the option of tariffing the rate in their interstate common line tariff, or to offer the service on a permissive detariffed basis, effective April 1, 2017.

Pattersonville Telephone Company will make physical copies of its offering reflecting the rates, terms, and conditions available for public inspection at its business office, at the address provided below:

Pattersonville Telephone Company
3225 Antigua Road SW
Carrollton, OH 44615

The permissive detariffing of Pattersonville Telephone Company's Consumer Broadband Only Loop offering will apply to the entirety of the Company's study area.

Pattersonville Telephone Company currently has only one customer for its Consumer Broadband Only Loop and other broadband Internet access transmission service. That customer is the Company's own non-regulated Internet Service Provider (ISP) affiliate. The Company's affiliated ISP purchases Consumer Broadband Only Loop and Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The provision of the Consumer Broadband Only loop service as a detariffed service will have no effect on the end-user services provided by the Company's ISP.

RE: Notice of Provision of Consumer Broadband Only Loop Service On A Permissive Detariffed Basis

This is to notify you of a change in the way Pattersonville Telephone Company provides its Consumer Broadband Only Loop service, which is used as an input for the broadband Internet access services that you offer to residential and business end-user customers.

Presently, Pattersonville Telephone Company provides its Consumer Broadband Only Loop service under a tariff through the National Exchange Carrier Association (NECA) Tariff F.C.C No. 5. The Company will no longer offer such DSL transmission service pursuant to a Tariff effective April 1, 2017. On and after April 1, 2017 services will be made to you on a common-carrier, non-tariffed basis.

To view the rates, terms, and conditions of our Consumer Broadband Only Loop services, please visit the Company's main office during normal business hours where there are printed copies of the rates, terms, and conditions.

Please note that the existing relevant rates, terms, and conditions of your service will not change until the end of your existing term or upon replacement of a new agreement under the detariffed rates, terms, and conditions.

Sincerely,

Aaron Jones
