re: 02-278

DOCKET FILE COPY ORIGINAL

To whom it concerns,

I wish to confidentially respond to the call for comments on 02-278; therefore I am sending a written response. I find it rather disappointing to hear that we, as a country, find it even acceptable to consider this petition to allow automatic messages in my voice mail box. Unsolicited phone calls are already a compliant of many consumers and you plan to allow even greater consumer disruption with this action. These businesses and political groups do not pay any of my phone bill so why should they be able to use my phones at will? This petition in no way, shape, or form supports the purpose for which individuals purchase phones. Depending on the plan, it is even possible that this petition will cost consumers. In conclusion, ***I am strongly against this plan and feel it should be rejected.***

Sincerely yours,

Nita Page Daves

POSTCARD

The Federal
Communications
Commission is considering
allowing robo-calls to go
straight to our voicemail.

NO ROBO CALLS OR
VOICEMAILS!!!!

Although I am on the
Do Not Call list I
get dozens of calls
each week - if they
were allowed to jam up
my voice mail it might
disguise important
messages. Please don't
allow Robo calls to go
directly to voice mail

The proposal to allow more unwanted messages (now, to our voice mail!) is insane! We want no such messages, not more!

Are these people out of their minds?

m part of the #WomensMarch movement.
'm from
and I'm concerned about Robo-Voicemail

Here's why: Do NOT Flood my voicemail with marketing messages. We get enough ads & marketing. Leave our phones alone

In the first 100 days of the new administration, I hope that you understand and take these concerns seriously.

Sincerely, Darlynn Childress
