Re: ***Public Notice*, DA 16-1072, WC Docket No. 10-90 (released September 23, 2016)**

Dear Mr. Lanning:

By this letter, and pursuant to the above-referenced Public Notice, Cable One, Inc. provides notice that it offers Internet service at speeds of at least 3 Mbps downstream and 768 kbps upstream in the census blocks listed in Attachment 1. These census blocks are among those listed in CenturyLink's September 13, 2016 notice to the Federal Communications Commission where it intended to use its CAF I Round 2 support. Attachment 2 includes a rate card showing Cable One's offer of Internet service at speeds of more than 3 Mbps downstream and 768 kbps upstream. Evidence of Cable One's offer of Internet service at these speeds can also be found on its website at http://www.cableone.net/residential/internet.

Attachment 3 to this letter is a certification signed by an officer of Cable One, Inc. certifying that Cable One in fact serves customers in the census blocks listed in Attachment 1. That list of census blocks also includes the addresses of current Cable One customers in those census blocks. A sampling of redacted customer bills with addresses in those census blocks in included as Attachment 4.

If you have any questions, please communicate with the undersigned.

Sincerely,

/s/ Craig A. Gilley
