Ruth,

Our school, SW Secondary Learning Center, would like to add our comment to say that we agree with the petitions that have been filed. Our charter school is designed around an online curriculum, so students need to be able to access the online curriculum from home in order to stay current in their classes. We have students from low income families that would benefit from this service.

Good morning,

Ovidiu would like to try and send something from NM to the FCC. The FCC is looking for comments on the homework gap mentioned in E-rate Central's newsletter. The FCC letter is also attached. The deadline is Dec. 5th, which is Monday. If you have something you would like to send, you may send it to me and I will add it to other comments and send it in, or you may comment directly to

them.

We appreciate any comments you may have the time to send.
