Re: *Applications of AT&T Inc. and DIRECTV for Consent to Assign or Transfer Control of Licenses and Authorizations*, MB Docket No. 14-90

Dear Ms. Jeffreys:

I am in receipt of your letter, dated December 8, 2016, requesting, on behalf of AT&T Inc., approval for a 30-day extension of the date for filing the remaining semiannual compliance reports required by the Commission as part of its approval of the above-referenced transaction.[1] You represent in your request that the extension will provide AT&T additional time to ensure the integrity and accuracy of the data contained in the semiannual compliance reports. Specifically, you state that the additional 30 days will give AT&T time to compile, process, review, analyze, and address any issues with its data, especially data regarding the millions of customer locations to which AT&T has deployed fiber-to-the-premises. You further represent that the change is non-material and will not alter the substantive requirements of the conditions imposed by the Commission.

While the current semiannual compliance reports are due on January 24th and July 24th of each reporting year (for reporting periods that end December 31st and June 30th, respectively), for good cause shown and in reliance on the representations contained in your letter, the request is approved. Subsequent AT&T semiannual reports in this proceeding will be due on February 24th and August 24th for each year of the reporting condition (the end dates of the reporting periods will remain the same).

If you have any questions regarding this matter, please contact Neil Dellar at (202) 418-8214.

Sincerely,

Matthew DelNero
Chief
Wireline Competition Bureau

[1] Letter from Maureen R. Jeffreys, Counsel to AT&T Inc., to Matt DelNero, Chief, WCB, FCC, MB Docket No. 14-90 (Dec. 8, 2016). Currently, AT&T is required to submit reports twice a year that summarize its compliance with certain conditions imposed by the Commission as part of its approval in *Applications of AT&T Inc. and DIRECTV for Consent to Assign or Transfer Control of Licenses and Authorizations,* Memorandum Opinion and Order, 30 FCC Rcd 9131, at Appx. B (2015).
