Re: Verizon Public Notice of Network Change(s), CFR 47 Sections 51.325 – 51.335

Dear Ms. Dortch:

Pursuant to Sections 51.325 – 51.335 of the Commission's rules, Verizon hereby submits the attached Public Notice of Copper Retirement under rule 51.332. Specifically, Verizon is providing notification of the replacement of copper distribution and loop facilities with fiber-to-the-home facilities at some locations in the Occoquan, VA wire center.

As part of a highway improvement project for the Route 1 and Route 123 interchange area in Occoquan, VA, the Virginia Department of Transportation is requesting Verizon relocate the impacted facilities. Verizon has deployed its fiber-to-the-home network in the areas identified in these locations. Verizon therefore intends to retire a number of copper facilities in the Occoquan, VA wire center and provide services over the fiber network infrastructure.

The majority of customers served by copper at these locations purchase "plain old telephone service." Following transition to fiber, Verizon will continue to offer these customers the same POTS service over fiber at the same or better price as they received on copper facilities, with no change in the underlying features and functionalities in their service.

A copy of the attached notice was mailed to the Virginia State Corporation Commission, Governor Terry McAuliffe, and the Department of Defense Chief Information Officer. Verizon has not provided notification to tribal entities as no tribal entity will be impacted by this copper retirement.

Please contact me should you need any further information.

Sincerely,

cc: Virginia State Corporation Commission
Governor Terry McAuliffe
Department of Defense Chief Information Officer

Implementation Date: On or after March 14, 2017

Planned Network Change(s) will occur at the following wire center area in Virginia:

Locations	**Verizon Wire Center**
Retirement of copper network facilities in the areas listed in Exhibit A Exhibit A may also be viewed at http://www.verizon.com/about/terms-conditions/network-disclosures	**14301 Crossing PL Occoquan, VA 22192 CLLI: OCQNVAXA (Occoquan)**

Description of the planned network change(s):
As part of a highway improvement project for the Route 1 and Route 123 interchange area in Occoquan, VA, the Virginia Department of Transportation is requesting Verizon relocate the impacted facilities. Verizon has deployed its fiber-to-the-home network in the areas identified in these locations. Verizon therefore intends to retire a number of copper facilities in the Occoquan, VA wire center serving locations listed in the attached Exhibit A and provide services over the fiber network infrastructure.

Description of reasonably foreseeable impact(s) of the planned change(s):
After the retirement of the copper facilities, Verizon will: (1) no longer offer services over copper facilities; and (2) cease maintaining the copper facilities.

Description of any changes in prices, terms or conditions that will accompany the planned change(s):
As a general matter, this retirement of copper facilities will not result in changes to rates, terms or conditions in cases where the affected service is converted to a like-for-like service that is available on fiber facilities. Interconnecting entities, however, should review the applicable tariff or agreement for certain terms that may apply specifically in cases where the service is provisioned on fiber. In cases where interconnecting entities elect to replace the affected service with an alternative service that Verizon offers on fiber facilities, the rates, terms, and conditions will be as set forth in the tariff or agreement under which Verizon offers the replacement service that the interconnecting entity selects.

EXHIBIT A
