Re: Sprint's Status Report on 800 MHz Band Reconfiguration
WT Docket 02-55

Dear Mr. Furth:

Sprint Corporation ("Sprint") hereby files this update regarding 800 MHz band reconfiguration progress with the Federal Communications Commission ("Commission") and the 800 MHz Transition Administrator, LLC ("TA").[1]

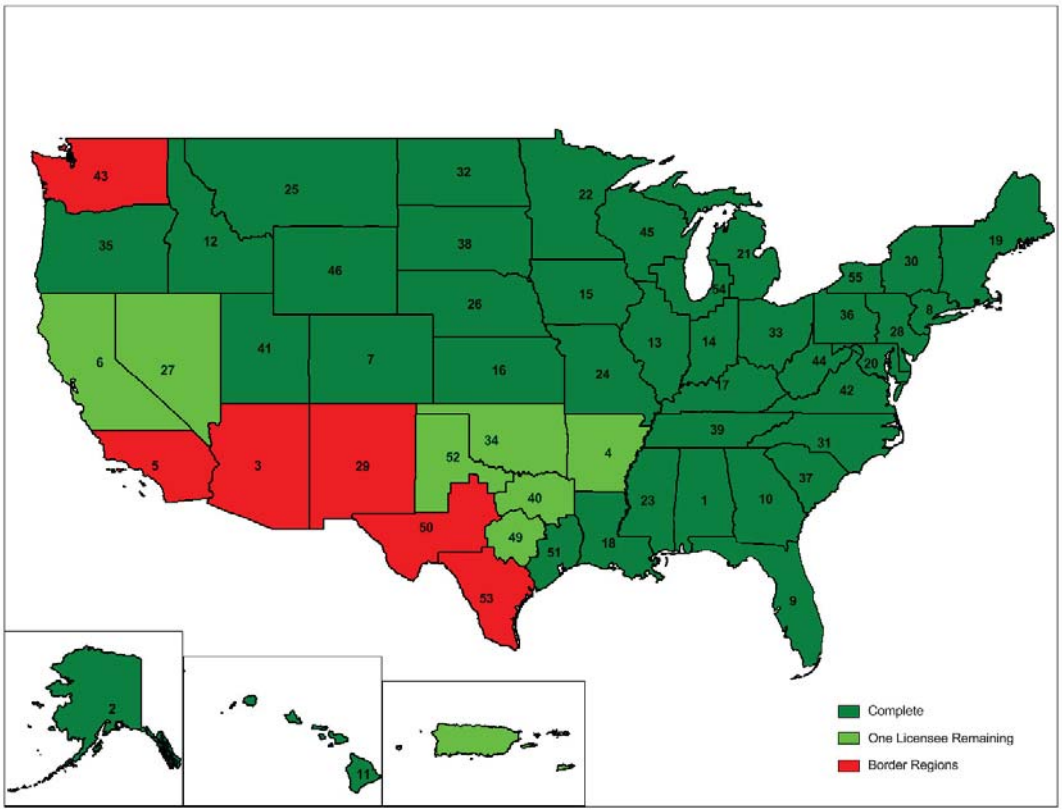
Progress on the nationwide 800 MHz band reconfiguration continues to make strong progress. All 800 MHz public safety and non-public safety licensees required to be retuned in a total of forty NPSPAC Regions and the U.S. Terrories have fully completed 800 MHz band reconfiguration efforts.[2]

---

[1] In its September 12, 2007 *Third Memorandum Opinion and Order* in the above-captioned proceeding, the Commission required Sprint to submit monthly reports regarding 800 MHz band reocnfiguration. *See Improving Public Safety Communications in the 800 MHz Band*, Third Memorandum Opinion and Order, WT Docket No. 02-55, at ¶¶ 29-30 (rel. Sep. 12, 2007) ("*Third Memorandum Opinion and Order*").

[2] The forty NPSPAC Regions that are completed are: Florida (Region 9), Washington, DC/Baltimore (Region 20), Virginia (Region 42), Eastern Pennsylvania (Region 28), Western Pennsylvania (Region 36), Ohio (Region 33), Kentucky (Region 17), West Virginia (Region 44), North Carolina (Region 31), Mississippi (Region 23), Oregon (Region 35), New York – Buffalo (Region 55), Michigan (Region 21), New York –Albany (Region 30), New York (Region 8), Chicago – Great Lakes (Region 54), Louisiana (Region 18), Tennesee (Region 39), Illinois (Region 13), Alabama (Region 1), South Carolina (Region 37), Indiana (Region 14), New England (Region 19), Texas – Houston (Region 51), Montana (Region 25), Georgia (Region 10), Idaho (Region 12), Missouri (Region 24), Kansas (Region 16), Nebraska (Region 26), Wisconsin (Region 45), Iowa (Region 15), Alaska (Region 2), Minnesota (Region 22), North Dakota (Region 32), Utah (Region 41), Colorado (Region 7), Hawaii (Region 11), Wyoming (Region 46) and South Dakota (Region 38). In addition Sprint was required to reconfigure all of the U.S. Terrirory's (collectively Guam/Northern Mariana Islands (BEA 173), and American Samoa (BEA175)) and those are also complete.

Currently only 15 Regions of the 55 NPSPAC Regions remain incomplete. Excluding the five Regions located within in the U.S. – Mexican Border Area[3] and the State of Washington (Region 43) located in the U.S. – Canada Border Area, only three individual licensees remain to complete 800 MHz band reconfiguration in the non-border area United States. The following is a map showing the status of each NPSPAC Region:



These accomplishments demonstrate that, by any measure, the multi-year, multi-billion dollar 800 MHz band reconfiguration project is reaching its final stages.

Consistent with previously filed monthly reports, Sprint hereby provides additional details regarding the status of 800 MHz band reconfiguration.

In Phase I, Sprint has completed the retuning of all non-Sprint, non-Southern LINC Channel 1-120 incumbent licensees in fifty-four of the fifty-five NPSPAC regions and all of the U.S.Territories. In the one remaining NPSPAC region (Puerto Rico/U.S. Virgin Islands) in which Channel 1-120 clearing has not been fully completed, only one 1-120 Channel licensee remains to have its licenses modified – the licensee remaining has no operational sites to physically retune. Overall, 99.99 percent of the nearly 1200 Channel 1-120 licensees that must be retuned during Phase I of 800 MHz band reconfiguration have been retuned. *See* Figure 1.

---

[3] Southern California (Region 5), Arizona (Region 3), New Mexico (Region 29), El Paso, TX (Region 50) and San Antonio, TX (Region 53).

Sprint and Southern LINC have completed all retuning activities in the southeastern United States including SouthernLINC clearing its operations from the lower 1-120 channels. *See* Figure 2.

In Phase II, one-hundred percent percent of all non-border area licensees who must be retuned (857 of 857 licensees) have signed Frequency Reconfiguration Agreements ("FRAs"). One-hundred percent of all U.S. – Canada border area public safety licensees who must be retuned (192 of 192 licensees) have signed FRAs, while one-hundred percent of all Puerto Rico/U.S. Virgin Islands licensees who must be retuned (8 of 8 licensees) have also signed FRAs. Overall, this is a signed FRA percentage of one-hundred percent, excluding the US – Mexico Border Area. In the U.S. – Mexico border area, which initiated rebanding in August 2013,[4] Sprint and incumbent licensees have already signed 122 FRAs and have also signed 38 Short-Form Letter Agreements (a total of 160 transactions out of 165 licensees – a 97% signed rate). Fifty-two retunes are complete in the US – Mexico BorderArea (32%).

In all 55 NPSPAC Regions Sprint has cleared its operations from the 1-120 channels (the "new NPSPAC" band) and, pursuant to the FRAs with individual incumbent licensees, will make all of these channels available to NPSPAC licensees to complete their retuning in accordance with their schedules. *See* Figure 3.

As demonstrated in Figure 4, over 1100 NPSPAC and non-NPSPAC licensees have established with Sprint a firm date for starting and completing their physical retuning work and most have, in fact, finished their retunes. These figures include U.S. – Mexico Border Area retunes which have now begun. *See* Figure 4.

Based on this progress, Sprint also continues to work closely with the 800 MHz TA to verify Sprint and the public safety's ongoing progress towards completion of rebanding on a NPSPAC-region-by-NPSPAC-region basis. Verification of this benchmark progress will continue to allow Sprint to make additional 800 MHz "interleaved" spectrum available to the Commission for relicensing for new systems and system expansion.

Sprint appreciates the continuing opportunity to update the Commission on the substantial progress being made in 800 MHz band reconfiguration. We remain available to discuss this Report at the Bureau's convenience. Sprint remains committed to completing this important initiative; however, as the information contained herein demonstrates, Sprint cannot complete 800 MHz band reconfiguration until all affected incumbent licensees complete their individual retuning activities.

---

[4] *See* Improving Public Safety Communications in the 800 MHz Band, New 800 MHz Band Plan for U.S. – Mexico Sharing Zone, *Firth Report and Order,* WT Docket No. 02-55, 28 FCC Rcd 4085 (PSHSB 2013); Public Safety and Homeland Security Bureau Announces That the 30-Month Transition Period for 800 MHz Band Reconfiguration in Regions Along the U.S. – Mexico Border Will Commence on August 23, 2013, *Public Notice*, WT Docket 02-55, DA 13-1770 (PSHSB August 16, 2013).

Should you have any further questions in this matter, please contact the undersigned.

Respectfully submitted
