Jonesboro, Arkansas

Discover the Difference

Jonesboro, one of Arkansas' fastest growing cities of over 72,000, is the 5th largest city in Arkansas and the 2nd largest in square miles. Form a triangle by connecting Little Rock, St. Louis, and Memphis, and you'll see Jonesboro stands out as the largest metropolitan city in what amounts to a 17,000 square-mile triangle area.

The Jonesboro region is a proven leader in a number of categories attractive to business, including geography, favorable climate, viable economy, advantageous tax structure, affordable housing, low crime rate, regional medical hub, opportunity for education, expanding retail and industrial community, recreational opportunities, cultural, sports and civic organizations, plus low utility costs. The Jonesboro MSA was recognized as 7th strongest in the nation for manufacturing.

There are more than 100 industrial plants or facilities in the Jonesboro area. The city includes not only attractive plant sites in four industrial parks, but also a high-quality transportation infrastructure. Jonesboro is served by two railroads; 42 trucking companies, and a regional airport which offers airline service to St. Louis. Memphis International Airport is only 1 hour away.

Industries located in Jonesboro find a highly productive, motivated work force, cooperative local officials, a favorable tax structure, and a central location. The Jonesboro Regional Chamber of Commerce, working with local businesses and professionals, and with local and state officials, comprise an active, effective industrial recruitment team. Their objectives are not limited to attracting new industries, but also include rendering vital help to existing industries. Such help may involve many aspects such as expansion, utilization of excess plant capacity, coordination of efforts to improve infrastructure serving plant sites, and more.

Jonesboro's industrial community includes plants of major U.S. firms such as Great Dane, Nice-Pak Products, Inc., Nestlé, Butterball LLC, Frito-Lay, Hytrol, Post Foods LLC, Riceland Foods, Thomas & Betts and Unilever.

Data are based on a sample and are subject to sampling variability. A margin of error is a measure of an estimate's variability. The larger the margin of error in relation to the size of the estimates, the less reliable the estimate. When added to and subtracted from the estimate, the margin of error forms the 90 percent confidence interval.

Jim Grant
General Manager/Associate Minister
KVTJ-DT Jonesboro/Memphis
Victory Television Network, Inc.
P.O. Box 26207
Little Rock, AR 72221

Dear Mr. Grant:

Please find attached the results of your request for a preliminary evaluation of a potential market modification for station KVTJ in Cross County, AR, St. Francis County, AR, Woodruff County, AR, Crittenden County, AR, Poinsett County, AR, Mississippi County AR, Pemiscot County, MO, and Dunklin County, MO.

DIRECTV's engineering staff was given the areas to evaluate for our Jonesboro, AR spot beam, and have found that:

- DIRECTV's spot beam does not cover **13** zip codes in Crittenden County
- DIRECTV's spot beam does not cover **2** zip codes in Cross County
- DIRECTV's spot beam does not cover **4** zip codes in St. Francis County
- DIRECTV's spot beam does not cover **1** zip code in Woodruff County
- DIRECTV's spot beam does not cover **2** zip codes in Poinsett County
- DIRECTV's spot beam does not cover **21** zip codes in Mississippi County
- DIRECTV's spot beam does not cover **12** zip codes in Pemiscot County
- DIRECTV's spot beam does not cover **5** zip codes in Dunklin County

DIRECTV will forward the results of this preliminary evaluation to the FCC for their records.

Thank you for your letter and your interest in DIRECTV programming.

Sincerely,

DIRECTV

Form of Certification Regarding Spot Beam Coverage

1. My name is Phil Goswitz. I am SVP of Engineering at DIRECTV. As such, I am responsible for determining service areas for television stations carried on DIRECTV's spot beams.

2. DIRECTV has reviewed the request to add the communities listed below to the local television market for the station indicated.

Station	State	County
KVTJ	AR	Crittenden, Cross, Mississippi, Poinsett, St Francis, Woodruff, Dunklin, Pemiscot

3. DIRECTV has analyzed, with respect to each zip code associated with this request, the expected performance against specific performance criteria. The following factors have been included in this analysis:
   a. The measured performance of the spot beam covering this Television Station's local market.
   b. Estimated atmospheric effects for reception of the signal.
   c. Estimated levels of interference.
   d. The amount of capacity currently used, and reasonably expected to be used, on the spot beam.
   e. The target availability figure used for all television stations offered on the spot beam.

4. From this analysis, DIRECTV has derived the following metrics, which it has used to evaluate the potential to provide service in the zip code(s) in question:
   a. Signal availability.
   b. Clear sky signal margin.
   c. Total carrier-to- interference ratio.

5. DIRECTV has conducted this analysis in substantially the same manner and using substantially the same parameters used to determine the geographic area in which it currently offers stations carried on the spot beam.

6. Based on this analysis, DIRECTV:
   ☐ Can provide service to all the zip codes associated with this request.
   ☐ Cannot provide service to any of the zip codes associated with this request because reception of the signal does not meet the minimum performance thresholds for DIRECTV's service.
   ☑ Cannot provide service to some of the zip codes associated with this request because reception of the signal does not meet the minimum performance thresholds for DIRECTV's service. The list of unserved zip codes is attached.

I declare under penalty of perjury that the foregoing is true and correct.

Re: *STELAR Feasibility Certification, Market Modification Pre-Filing Coordination Letter for KVTJ-DT*, MB Docket No. 15-71

Dear Mr. Grant:

DISH Network L.L.C. ("DISH") is in receipt of your pre-filing coordination letter ("Letter"),[1] pursuant to the procedures set forth in the Federal Communications Commission's ("FCC") rules governing market modifications for satellite carriers under the STELA Reauthorization Act of 2014 ("STELAR").[2]

The Letter requests information regarding carriage of KVTJ-DT, Jonesboro, Arkansas into eight counties (Cross County, Arkansas; St. Francis County, Arkansas; Woodruff County, Arkansas; Crittenden County, Arkansas; Poinsett County, Arkansas; Mississippi County, Arkansas; Pemiscot County, Missouri; and Dunklin County, Missouri) (together, the "Counties"). The attached Feasibility Certification pursuant to 47 C.F.R § 76.59(e) reflects DISH's response to the Letter.

Please contact me if you have any questions.

---

[1] Letter from Jim Grant to Alison A. Minea, March 31, 2016.

[2] *See* Amendment to the Commission's Rules Concerning Market Modification, Implementation of Section 102 of the STELA Reauthorization Act of 2014, *Report and Order*, MB Docket No. 15-71, FCC 15-111, ¶ 47 (Sept. 2, 2015) ("*Market Modification Order*"). *See also* STELA Reauthorization Act of 2014 (STELAR), § 102, Pub. L. No. 113-200, 128 Stat. 2059, 2060-62 (2014) (codified at 47 U.S.C. § 338(l)).

Sincerely,

*Alison Minea*_____

Alison Minea
Director & Senior Counsel, Regulatory Affairs
DISH Network L.L.C.

Attachment: Feasibility Certification Pursuant to 47 C.F.R. § 76.59(e)

FEASIBILITY CERTIFICATION PURSUANT TO 47 C.F.R § 76.59(e)

1. This Feasibility Certification is issued by DISH Network L.L.C. ("DISH") pursuant to the pre-filing coordination procedures contained in the Federal Communications Commission's ("FCC") Order[1] governing market modifications for satellite carriers under the STELA Reauthorization Act of 2014 ("STELAR").[2]

2. This Feasibility Certification responds to the letter ("Letter") dated March 31, 2016 from Jim Grant requesting information regarding carriage of KVTJ-DT, Jonesboro, Arkansas into eight counties (Cross County, Arkansas; St. Francis County, Arkansas; Woodruff County, Arkansas; Crittenden County, Arkansas; Poinsett County, Arkansas; Mississippi County, Arkansas; Pemiscot County, Missouri; and Dunklin County, Missouri) (together, the "Counties").

3. DISH carries KVTJ-DT on spot beams on two different satellites, one located at the 129º W.L. orbital slot (which is in the "Western Arc") and the other at the 61.5º W.L. orbital slot (which is in the "Eastern Arc"). DISH also provides service from several other orbital slots.

4. The ability of an individual DISH subscriber in each of the Counties to receive KVTJ-DT depends on, among other things, how the subscriber's individual satellite antenna was originally installed and pointed, and whether that subscriber is predicted to have adequate spot beam coverage from one of our two satellites that carries KVTJ-DT.

5. In general, a DISH customer's satellite antenna, when installed, is pointed so that it can receive satellite signals from specific orbital slots. Receiving service from orbital slots not planned for in the original equipment installation at the subscriber's home typically would require DISH to send a truck and technician to adjust equipment or install different equipment, which would impose a very substantial cost burden on DISH.

6. In addition, DISH subscribers who have satellite dishes pointed to receive service from the Western Arc may have either (i) an older set-top box compatible with MPEG-2 format satellite signals, or (ii) a newer set-top box compatible with MPEG-4 format satellite signals. On the other hand, DISH subscribers who have satellite dishes pointed to receive service from the Eastern Arc exclusively have MPEG-4 set-top boxes. A DISH subscriber who was originally installed with an MPEG-2 set-top box and whose satellite dish was pointed to receive service from the Western Arc could not be converted to service from the Eastern Arc until, among other possible changes, her satellite dish was repointed or replaced and her set-top box(es) were changed to MPEG-4 compatible versions.

---

[1] Amendment to the Commission's Rules Concerning Market Modification, Implementation of Section 102 of the STELA Reauthorization Act of 2014, Report and Order, MB Docket No. 15-71, FCC 15-111, ¶ 47 (Sept. 2, 2015) ("*Market Modification Order*").

[2] STELA Reauthorization Act of 2014 (STELAR), § 102, Pub. L. No. 113-200, 128 Stat. 2059, 2060-62 (2014) (codified at 47 U.S.C. § 338(l)).

7. For DISH subscribers in each of the Counties, DISH must first determine whether the particular spot beam on each of our two satellites that carry KVTJ-DT provides adequate spot beam coverage. In determining whether a given spot beam covers each of the Counties, DISH evaluates whether the spot beam's signal, as designed by the satellite manufacturer, is predicted to achieve reception and demodulation of the signals at the same availability levels that DISH ordinarily uses to assess spot beam coverage for the local markets to which DISH provides service. In so doing, DISH has "conducted this analysis in substantially the same manner and using substantially the same parameters used to determine the geographic area in which it currently offers stations carried on the spot beam."[3] The calculation methodology takes into account the following principal parameters: (i) the uplink and downlink portions of the end-to-end satellite signal, (ii) rain loss using the International Telecommunication Union ("ITU") 618.6 rain rate data and ITU rain region boundaries, (iii) atmospheric loss, (iv) carrier to interference ratio ("C/I") terms due to adjacent satellite interference, (v) C/I terms due to aggregate adjacent beam interference, (vi) cross polarization degradation, (vii) forward error correction, and (viii) modulation.

8. As an initial matter, in each of the Counties, there is a subset of subscribers who have satellite dishes that are not pointed to receive satellite signals from **<u>any</u>** satellite that currently transmits KVTJ-DT. For example, there are DISH subscribers in each of the Counties who receive service *only* from the 110º and 119º W.L. orbital slots, and not either 129º W.L. or 61.5º W.L. Therefore, it would be both "technically infeasible" and "economically infeasible" pursuant to 47 C.F.R. § 76.59(e) for such subscribers to receive KVTJ-DT from DISH, because DISH would need to send a truck and a technician to each such subscriber's home to re-point or replace the satellite antenna, and might also need to provide a different set-top box.

9. Other DISH subscribers may be able to receive KVTJ-DT from one of our two satellites that carries it. Each of the Counties is more or less different with respect to spot beam coverage from the Western Arc and Eastern Arc satellites that carry KVTJ-DT. One of the Counties has no coverage from either the Eastern or Western Arc satellite spot beams that carries KVTJ-DT, others have coverage from one satellite spot beam but not both, and others still have only partial coverage from one or both satellite spot beams.

    a. **Cross County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in Cross County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. The Eastern Arc satellite spot beam that currently carries KVTJ-DT probably has sufficient coverage of Cross County, but Cross County is <u>outside</u> the coverage area for the spot beam on the Western Arc satellite that currently carries KVTJ-DT. If a DISH subscriber in this county wanted to switch from the Western Arc to the Eastern Arc, that subscriber would likely require both (i) a satellite dish re-pointing or a different satellite dish and (ii) a different set-top

[3] *Market Modification Order* ¶ 41.

box (or multiple different set-top boxes if the subscriber has multiple TVs) if the customer did not already have MPEG-4 compatible equipment.

b. **St. Francis County** is outside the coverage area for the spot beams on both the Eastern Arc and the Western Arc satellites that currently carry KVTJ-DT.

c. **Woodruff County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in Woodruff County, Arkansas have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. The Eastern Arc satellite spot beam that currently carries KVTJ-DT probably has sufficient coverage of Woodruff County, but Woodruff County is outside the coverage area for the spot beam on the Western Arc satellite that currently carries KVTJ-DT. If a DISH subscriber in this county wanted to switch from the Western Arc to the Eastern Arc, that subscriber would likely require both (i) a satellite dish re-pointing or a different satellite dish and (ii) a different set-top box (or multiple different set-top boxes if the subscriber has multiple TVs) if the customer did not already have MPEG-4 compatible equipment.

d. **Crittenden County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in Crittenden County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. The Eastern Arc satellite spot beam that currently carries KVTJ-DT is predicted to achieve only partial coverage of Crittenden County, and Crittenden County is outside the coverage area for the spot beam on the Western Arc satellite that currently carries KVTJ-DT. If a DISH subscriber in this county wanted to switch from the Western Arc to the Eastern Arc, and assuming the subscriber was inside the partial coverage area for the Eastern Arc spot beam, that subscriber would likely require both (i) a satellite dish re-pointing or a different satellite dish and (ii) a different set-top box (or multiple different set-top boxes if the subscriber has multiple TVs) if the customer did not already have MPEG-4 compatible equipment.

e. **Poinsett County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in Poinsett County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. The Eastern Arc satellite spot beam that currently carries KVTJ-DT probably has sufficient coverage of Poinsett County, while the Western Arc satellite spot beam that currently carries KVTJ-DT is predicted to achieve only partial coverage of Poinsett County. If a DISH subscriber in this county wanted to switch from the Western Arc to the Eastern Arc, that subscriber would likely require both (i) a satellite dish re-pointing or a different satellite dish and (ii) a different set-top box (or multiple different set-top boxes if the subscriber has multiple TVs) if the customer did not already have MPEG-4 compatible equipment.

f. **Mississippi County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in Mississippi County have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. The Eastern Arc satellite spot beam that currently carries KVTJ-DT probably has sufficient coverage of Mississippi County, while the Western Arc satellite spot beam that currently carries KVTJ-DT is predicted to achieve only partial coverage of Mississippi County. If a DISH subscriber in this county was outside the partial coverage area for the Western Arc spot beam and wanted to switch to the Eastern Arc, that subscriber would likely require both (i) a satellite dish re-pointing or a different satellite dish and (ii) a different set-top box (or multiple different set-top boxes if the subscriber has multiple TVs) if the customer did not already have MPEG-4 compatible equipment.

g. **Pemiscot County and Dunklin County:** Apart from the DISH subscribers described in paragraph 8, some DISH subscribers in these two counties have a satellite dish that is pointed to receive from satellites located in the Eastern Arc, while others are pointed to receive from Western Arc satellites. Both the Eastern Arc and Western Arc satellite spot beams that currently carry KVTJ-DT probably have sufficient coverage of both counties.

10. As the above analysis shows, providing KVTJ-DT to the Counties would create a complex patchwork of different customer scenarios. Among other things, DISH would need to parse its subscribers into different groups depending on whether they are pointed to the Western Arc or Eastern Arc satellite (or neither one) that carries KVTJ-DT. From there, DISH would need to sort again based on spot beam coverage. DISH would need to make, among other things, operational and billing changes in an attempt to manage these many different cases. And attempting to target the provision of KVTJ-DT to the subset of DISH subscribers in certain Counties who might be able to receive it would cause customer confusion. For example, one DISH subscriber might be able to receive KVTJ-DT while her neighbor could not.

11. As a result, DISH has determined that it would be "technically infeasible" or "economically infeasible" or both (depending on the individual county) pursuant to 47 C.F.R. § 76.59(e) for DISH to manipulate its systems to identify and customize the provision of KVTJ-DT to the subset of DISH subscribers in certain of the Counties who might be able to receive the station from one of the satellites that currently carries it.

12. DISH reserves the right to amend this Feasibility Certification at any time due to, among other things, a satellite equipment failure or a different satellite or satellites being brought into service for the area that includes the Counties which has different coverage capabilities than the satellites currently being used.

13. To the extent that KVTJ-DT were to elect retransmission consent with respect to DISH for carriage of its station any of the Counties, DISH cannot be certain whether it will be able to successfully reach an agreement with the station.

The foregoing has been prepared using facts of which I have personal knowledge or upon information provided to me. I certify under penalty of perjury that the foregoing is true and correct to the best of my current knowledge, information, and belief.
