PRESIDENT Bush

I would suggest that you hastily contact the F.C.C. and demand that political ads showing ABORTED FETUSES be barred from TV during hours children may be watching.

THIS KIND OF AD - AND ITS USE - DOES NOT SOUND LIKE FAMILY VALUES to me!

Dear Mr Sykes,

I find the "Perry for Senate" ads now being run on our local television stations to be extremely objectionable

Watching.

I sincerely hope that this type of ad will be scrutinized in the future and will not be shown again -

Sincerely

I strongly support the airing of political ads even if I disagree with their content. The strength of this nation is based on the free exchange of ideas. Any form of censorship is to be resisted by you and the Commission.

I think this should be true in local campaigns as well as national campaigns. I dont want

Please do not ban the exposure of truth in these ads. The films from Africa are also shocking, but we need to see them and learn the truth.

As a mother of two, a grandmother of six and a great grandmotha of one, I was appalled that gross pictures of aborted fetuses were forced on T.V viewers.

EX PARTE OR LATE FILED

The anti abortionists have a right to their views, but must think of children (now living) who see these pictures. These children have enough worries and

make big money on it, and until they go back to family values and morals, our society is going to suffer.

Are abortionists even use their children to picket clinics and break the law, what do they think they are doing for these living children?! You can tell from some of their little faces that they do not understand, but are doing what their parents do & say.

To Whom may Concern:

Following the airing of the political advertisements by Senatorial Candidate Matt Noah, I wrote the Denver Television stations condemning them for having the poor judgment to expose their viewers to an aborted fetus. I was advised that the FCC policy allows candidates air time regardless of content. Certainly such a policy could only have been instituted with the idea that political candidates would use good taste in preparing their campaign material. Now that we are all aware how low some candidates will stoop to get everyone's attention, it is time to revise the FCC policy [illegible] use only material considered in good

I am writing to complain that you are allowing "candidates" for the house to show film of tri-mester aborted fetuses during their "political" ads. These ads are disgusting, have no place on TV during prime time viewing and blatantly deceptive. I request that consider banning these ads.

Dear Sir,

At 10:45 A.M. this morning a political campaign ad came on N.B.C. television for Chad Koppie. I'm glad my sip and eight year old children didn't see it. It showed aborted babies which are not considred obscene. Who ever made that decision had to be thinking of adults not children. Is this true? I would like to know.

If they want to air this ad on television it should be done late in the evening so children will not be exposed to this campaign ad. And this politician can have his freedom

of speech.
I hope you will respond to my letter because I need an answer.
