Frontier works to satisfy all service requests, but not every initiated order is ultimately fulfilled. There are occasions when broadband service cannot be installed at the requesting address location due to reasons such as distance, capacity, and equipment incompatibility. In those cases, Frontier will review whether it can provide broadband service from other access points or utilize available equipment. If Frontier's review is unsuccessful, then the order is cancelled and the customer is notified.

Line 510 – Description of Compliance with Service Quality Standards and Consumer Protection:

The Frontier ILEC companies certify that they comply with applicable state and FCC service quality standards. Service quality metrics are monitored and reported on a monthly basis. Frontier has implemented numerous Consumer Protection measures to protect customer information from improper use and disclosure as well as to protect against fraud. For example, Frontier has implemented Customer Proprietary Network Information (policies and procedures) that are consistent with the FCC's regulations. Frontier regularly trains employees who have access to CPNI on the rules and our procedures for securing accounts and authenticating callers. Frontier also has a comprehensive Identity Theft Protection Program (or Red Flag program) which is consistent with the FTC's guidance on measures to detect and prevent identity theft. All employees are trained on Frontier's Code of Business Conduct and Ethics, which requires employees to protect sensitive customer information from improper use and disclosure. Frontier also has a Data Privacy and Security policy which applies to all employees. Further, Frontier also has implemented a strict third-party qualification protocol to prevent unauthorized charges ("Cramming") from appearing on customer's bills. Frontier also follows a "First Call" resolution policy, which aims to resolve customer complaints about unauthorized charges in one call, without referral to any third party. In addition to the foregoing, Frontier, has implemented customary IT security measures to protect our network and customer information.

Frontier certifies compliance with Ohio state consumer protection rules; Ohio Administrative Code 4901:1-6.

The Ohio state consumer protection rules are available at:

http://codes.ohio.gov/oac/4901%3A1-6

Row 610 - Description of Functionality in Emergency Situations

In December 2013, the FCC adopted new rules to promote 911 resiliency, including requesting initial certification of substantial progress towards meeting these new requirements by October 15, 2015. *See Improving 911 Reliability; Reliability and Continuity of Communications Networks, Including Broadband Technologies*, 28 FCC Rcd 17476 (2013); *see also Public Safety and Homeland Security Bureau Announces Effective Dates of 911 Reliability Certification and PSAP Outage Notification Requirements*, Public Notice, 29 FCC Rcd 13900 (2014). On October 15, 2015, Frontier filed its certification that it is meeting the FCC's substantial progress goals. Specifically, Frontier met and certified to all of the requirements related to back-up power, circuit auditing, and network monitoring practices. Additionally, Frontier's network is engineered to provide maximum capacity in order to handle excess traffic in the event of traffic spikes resulting from emergency situations.
