REDACTED FOR PUBLIC INSPECTION

June 30, 2016

Office of the Secretary
Federal Communications Commission
445 12th Street SW
Washington, D.C. 20554

RE: **WC Docket No. 14-58**

This report is being re-submitted due to the exclusion of the tribal data in the original filing.

Pursuant to Section 54.313 and 54.422 of the Federal Communications Commission's rules enclosed is the 2016 annual report and certifications for Windstream **Study Area Code 351167 located in Iowa**. A copy of this report is also being filed with the Universal Service Administration Company (USAC), relevant state public service commissions, and tribal governments.

This filing contains a redacted (200) Service Outage Reporting (Voice) form. The information that was redacted is considered Confidential by the FCC and would cause Windstream to reveal proprietary information and trade secrets and cause damage to its competitive position.

Also redacted are forms (320) Unfulfilled Broadband Service Requests and (710) Company Broadband Service Price Offerings. Windstream does not make this information available to the public in the format required by this report. Release of this data would be detrimental to Windstream as it would provide other broadband providers servicing these areas a competitive advantage.

Should you have any questions, please contact me via email at jeff.l.heacox@windstream.com or by phone at 501-748-5390.

Sincerely,

/s/ Jeff Heacox

Request for Meeting to Discuss Telecommunications Facilities and Needs Assessment on Tribal Land as required by the Federal Communications Commission

Dear Chair Judith Bender:

The Federal Communications Commission ("FCC") recently issued an Order requiring telephone companies to reach out to Tribal governments in their service areas to discuss tribal communication needs including the following: a needs assessment, deployment planning with a focus on tribal community anchor institutions, feasibility and sustainability planning, marketing services to the tribal community, rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes, and Compliance with tribal business and licensing requirements.

In addition, the FCC's Office of Native Affairs and Policy ("ONAP") issued a Public Notice on July 19, 2012 providing additional guidance regarding the engagement with tribal governments stating:

> This guidance is intended to "lead to a common understanding between Tribal governments and communications providers receiving USF support, on the deployment and improvement of communications services on Tribal lands. The Tribal engagement obligation is intended to benefit Tribal government leaders, service providers, and consumers living on Tribal lands, ultimately providing greater connectivity to 21st century economic opportunities, education, health care, and public safety. This obligation is related to the very essence of universal service – facilitating and supporting connectivity to and from the most remote areas of our nation inures to the benefit of all. Requiring Tribal engagement is intended to begin and, in some cases, to strengthen, the dialogue between communications providers and Tribal governments. We anticipate that genuine dialogue and common understandings will ultimately lead to improvement of communications services on Tribal lands."

We would like the opportunity to schedule a time to meet with you and other tribal officials to discuss tribal communication needs, marketing opportunities to the tribal community, right of way processes, land use permitting, facilities siting, and environmental and cultural preservation. Please contact me at 501-748-5686 to schedule a meeting time.

I look forward to hearing from you and the opportunity to discuss these important issues.

Sincerely,
