Mr. Burgognoni, attached is the quote you requested on the 3COM switches. You may notice that I quoted you a 24 port 3300SM instead of the 12 port 3300 with a 1000 Base SX Fiber Module. This is because the 3300SM is a 24 port switch that comes pre-configured with a 1000base fiber uplink, resulting in a cost savings for you.

I am also including some information on the company and the various products and services we can offer you including free consultations, maintenance contracts, hardware/software sales, support, installation, and other services. We have recently opened a branch office in Cleveland, MS to better service all of your tech related needs and other districts in the Delta.

Additionally, I would like to schedule a time convenient with you to visit the school to better assess your needs with this project. Feel free to contact me if you have any questions or need any additional assistance.

Thanks and I look forward to hearing from you again.
