RE: Docket No. 07-16

Madame Secretary,

As a business owner I am writing you in support of Docket No. 07-16. Fast, free broadband service would help SB Health & Beauty Spa participate more fully in e-commerce and allow me to focus my ad budget on Internet marketing space for local customers.

Small businesses like mine make up 99% of business in the U.S. Small businesses stand to benefit most from the M2Z proposal because it would open up the on-line market to the majority of consumers. Right now, only 42 percent of American homes have broadband. That means an estimated 120 million adult consumers can not be reached on-line currently.

Please make ubiquitous broadband a reality for independent entrepreneurs by passing Docket No. 07-16.

Regards,

Bianca Menzerotolo
