AT&T MOBILITY LLC
QUARTERLY E911 IMPLEMENTATION REPORT

AT&T Mobility LLC (hereinafter "AT&T"), by its attorneys, hereby submits its Quarterly E911 Implementation Report.[1] This Report details the status of AT&T's Phase I and Phase II E911 implementation for its Global System for Mobile Communications ("GSM") network. The instant Report is limited to updating information regarding pending E911 deployments that has changed since the filing of the previous report on November 3, 2008.[2]

On October 26, 2004, AT&T's predecessor, Cingular Wireless LLC ("Cingular"), completed its acquisition of AT&T Wireless ("AWS"). On November 16, 2007, AT&T completed its acquisition of Dobson Cellular Systems, Inc. ("Dobson"). This report therefore includes information for the former AWS, Cingular and Dobson networks.[3] All three entities are

[1] AT&T is not subject to a quarterly reporting requirement, but nevertheless it is voluntarily submitting the instant report.

[2] *See* Cingular Wireless LLC, Quarterly E911 Implementation Report for GSM Network, CC Docket No. 94-102 (filed November 3, 2008).

[3] AT&T's E911 system integration efforts are ongoing, and the attached spreadsheets reflect the results of the compliance tracking integration process to date. As with prior reports, AT&T is reporting on all E911 requests for service received in areas served pursuant to various transaction between the company and other entities. In addition, for those areas where Bug Tussel Wireless manages portions of AT&T's wireless spectrum, all deployments with due dates
(continued on next page)

subject to E911 consent decrees[4] and all of the benchmark deadlines contained in these decrees have been satisfied to date. AT&T continues to deploy its Phase II solution within the 50% six month and 100% fifteen month deadlines set forth in the decrees, unless a different deployment date has been negotiated with the requesting PSAP. Integration of the former Dobson E911 network elements into AT&T's wireless 911 network is ongoing, along with E911-related integration stemming from other transactions.[5] Additional summary information regarding AT&T's 911 implementation status is set forth below, and detailed deployment data is included in Attachment A hereto. Deployment data for Dobson is included in Attachment B.

STATUS OF IMPLEMENTATION AND DEPLOYMENT PLAN

To date, AT&T has received 3,927 valid PSAP requests for Phase I service on its GSM networks.[6] Of these requests, 3,826 have been deployed and 101 are in progress. AT&T also has received 3,681 valid PSAP requests for Phase II service on its GSM networks.[7] Of these requests, 3,422 have been deployed and 259 are in progress. With the exception of E911 related integration actions referenced in footnote 5, the spreadsheets set forth as Attachments A and B include information on the status of E911 deployment associated with all PSAP requests for

---

in the reportable quarter were timely completed and the remaining deployments are projected to meet the applicable deadlines.

[4] *See, Cingular Wireless LLC*, 18 F.C.C.R. 11746, n.9 (2003) ("Cingular *GSM Consent Decree*"); *AT&T Wireless Services, Inc.*, 17 F.C.C.R. 19938, n.10 (2002) ("*AWS GSM Consent Decree*"); *Dobson Cellular Systems, Inc.*, 22 F.C.C.R. 7968, (2007) (*"Dobson Consent Decree"*).

[5] These transactions include Farmers, Brazos, Wes-Tex, Easterbrook, and Edge Wireless. As the network components associated with these transactions are integrated into the AT&T wireless 911 network, their information will be included in the accompanying exhibits to future quarterly submissions.

[6] This number is a cumulative total of Phase I requests received by AT&T and its predecessors, and excludes requests that have been withdrawn.

Phase I and Phase II E911 service in areas in which AT&T operates GSM networks, including the date the request was made and the status of the request. GSM has been deployed in all markets served by AT&T.

If you have any questions, please contact the undersigned.

Respectfully submitted,

AT&T MOBILITY LLC

By: William E Hogg
SVP, NP&E and
Mobility Network Operations

February 2, 2009

[7] This number is a cumulative total of Phase II requests received by AT&T and its predecessors, and excludes requests that have been withdrawn.
