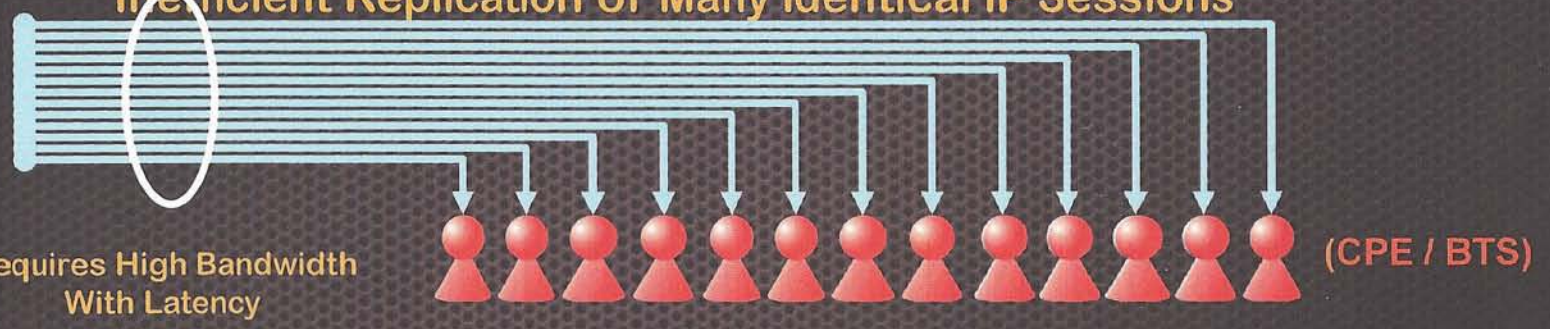
Broadcasting The Internet

CTB Group

" STING + CTB : IP Broadcasting => Fast & Efficient "

Existing IP 'Connectivity' => Latency & High Bandwidth Consumption
Inefficient Replication of Many Identical IP Sessions



CTB Innovation : IP Broadcasting => Fast & Efficient

Low Bandwidth Requirement
Without Latency

This is possible as large numbers of people seek similar information / content.
The ability to store content at the user device level for immediate retrieval enhances the efficiency at all levels of the Internet cloud.
