Help the FCC improve television programming for your children.

Make your voice heard:

Please seriously consider the long range effect of children viewing violence on television in their formative years. You have the privilege of using your influence to effect the future. Please use it thoughtfully, wisely and well.

Thank you,

JoAnn King

On behalf of the children and our investment for the future, I strongly encourage you to consider the advice of child development professionals regarding television programming. In addition, common sense is a good guide.

Statistics show our country to be in a crisis... violence, teen pregnancies, hopelessness. Our children are the future. It is in all of our best interests parents, the movie and television industry, and legislators to look honestly at the problem and join together to become more responsible and to protect our future. Let's raise our sights to a higher level and use this powerful medium to bring us all to a better place. Thanks!

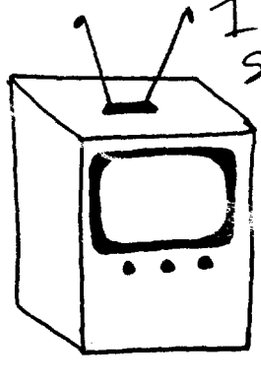
I support continued and increased funding for public television. I agree that there exists a problem with violent, sexist programming on commercial television.



I do not agree that the government should censure programs for our "best interests." I choose the programs my children watch and most days, there are few acceptable programs on commercial TV. So I turn it off.
