DOCKET FILE COPY ORIGINAL

10/12/95

My husband and I are grandparents now, and we watch T.V. often with our grandchildren. It's frightening to see what these little minds are taking in.

Our children watched T.V., some when they were small, but the programs were clean. Today you can hear almost any word or words that were always considered bad words only a few years ago.

Please have compassion on our children and have more educational programs for our next generations.

from two loving caring grandparents.

To whom it may concern:

I am responding to your request for input on Children's programming

My children enjoy action, drama and comedy programs.

I would greatly appreciate stories with wholesome values, (the values that have guided our society for generations), to encourage and supplement what they are learning at home. Reinforcement of these values would be wonderful!

I also would appreciate stories that require more cognitive thinking, & less violence.

Thank you for your consideration,
Pam Sivits

Dear Commissioners,

Please support President Clinton's idea that each t.v. network be required to air at least three hours of educational t.v. for children each week.

We must do what we can to cut down on the amount of violence and pornography now appearing on television.

Children learn what they see. They are the future of our country. Let's give them good ideas. We all need it.

Thank you.

Sincerely, Joyce Sunderland
