What is happening to the FCC this year and what is the telecommunications bill trying to do to close down NPR and PBS and diverse Voices across U.S.A.

With all the bids etc. and since we own the airways - where our funding for airways?

The Honorable Reed Hundt, Chairman: MM 93-48

I would like to encourage you to strengthen the Children's Television Act. Our children are our future and we need to be watching better the "input" they receive from TV without parental supervision.

Thank you for your concern.

Dear mr. Reed Hundt,

Today in the newspaper, I read an article about T.V. programs not being educational any more. what they mean by this is that in the past, you could not hear any profanity on t.V. and now you could even hear one of the most offensive words people use.

Of this situation, I think that as a child, I watch t.v. 4 or five hours a day. I spend more time watching t.V. than what I spend studying. also, I feel that T.V. now and days should change a little bit more. they should use less profanity.

Thank you for reading my letter, I hope you can come and visit us. But if this is not possible, can you please write a letter to use and send us more info. Thank you, Maria A. Mendoza

I have read in an article about education program on television. It about students watched less educational program then origanal program. The origanal program had bad language, nudity and violence. It mostly all bad. Students dont like educational program because the people not interest. What do you think? Do you know why students dont like educational program? I think I know because I am a student. The educational program is not interest. I dont know why it not interest. Usually I dont watch this program on television. I only watch movies in a cassette not in television. I dont know how to deal with this issue. What will F.C.C. do? Do they agree to put in only educational program in? Hope it will as real program. Dear ms. Jeannine Averyo in mr. averino's class we read about your article and we had to write about it. I think the most educational thing what you mentioned in the article was the movie "free willy". I thing it is educational because you can see that you will have to respect every living thing in this universe that is including animals plants, human beens and any living thing. if I was the people that rule the tv. studios I would leave it just the way they are because if the cut the channels and put more news or educational things I would leave it just the way they are because if they do so ~~[illegible]~~ more people will not watch a lot of t.v. and would listen to video tapes or radios. And people would not make the money they used to work there. I think of the article is not right because people will get angry. So please write back to us or it will be more better if you come and visit us. because if you do and come and visit us the teachers will be proud of the students and the principal will be more proud of us. I hope you do come and visit us because if teachers will be proud the students will be more couraged and if we get more courage we will do more work and will get better grades. And will pass

Dear Ms. Reed Hundt,

Hi! My name is Dieu Hien Nguyen. Today in class she read about that today many people said that there are no educational on Television. They say that they want a television with educational on them so their kids could learn more about stuff in it. They are also said that other kinds of movies on the television doesn't help the kids a lot but it really affect the children more and more.

I think that they should put more educational on television so the children could learn more from it. I also think that they should not put too many movies because when one children watch movie they will never will go their homework or other activities like.

I needed like you to send more information about this problem or come to our class and talk to us more.

What i dont under stand from this paper is that said the following And study released last week by Dale Kunkel, a communications professor at UC-Santa Barbara, found some stations classifying "America's Funniest Home Videos," "Mighty Morphin Power Rangers" and even "Yogi Bear" as educational and i wanted to ask you how does America's Funniest Home videos classifies as educational. think about that I dont like some movies because they have to much profanity. That is why my mom dosent like U.s to watch movies, she has to sit here with us and see if the movie has profanity if dose she will turn it off. One of the badest move I have ever seen was Jason gose to hell. That move when my mom saw it she took it out of the VCR and she broke the tape. It was too nasty for us. It had a lot of profanity violence and sex. If this law happens to pass what is going to happen. I think that there should be more comedies for kids like home alone 1 and 2. The educational show that I used to see was Semese

Street. That was when I was [illegible] The programs I like [illegible] "Where in the World is Carmen Sandiego" "Bill Nye the Science guy" and Ghostwriter I think that it is very educational I see Carmen Sandiego because it teaches me about the countries. Bill nye because I sometimes need to do reports for science and I find what to do there and Ghostwriter because it is very interesting. Thank you for reading this letter and I hope there is no more problem in Music nor shows or movies. Can you gives more information?
