Federal Communications Commission
Bureau / Office

Michael J. Copps, Commissioner
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

December 20, 2010

Dear Mr. Copps,

Please accept the enclosed 2,430 personal letters, and more than 77,600 petitions (sent to FCC Chairman Julius Genachowski) – gathered from citizens representing every state in the nation who oppose the Federal Communications Commission's plan of seizing federal control of the Internet under the thin veneer of promoting "freedom" for all.

The Internet needs no regulation and is arguably the greatest free-market mechanism our nation has ever seen. The fact that the federal government is scheming to take control will be a blow to the free market, and ultimately our Free Speech rights as citizens.

Our petition states:

As a concerned citizen, I am signing this petition opposing the so-called "Net Neutrality" regulations being considered by the Federal Communications Commission, or similar legislation in Congress or the states. Net Neutrality imposes government control on the free market of the Internet and is yet another statist power grab. The FCC does not have the authority to force such sweeping regulations on the free market. I strongly oppose this effort and urge the FCC to: a) keep government control out of the Internet, and, b) leave the legislating to Congress.

<u>In short, the American people oppose what amounts to a federal power-grab of the Internet and the regulation, rationing and control that is certain to follow</u>.

If you would like to respond to those who have signed our petition, please contact me at: 757-487-7900.

Ron De Jong

The FCC does not have the authority to force such sweeping regulations on the free market. I strongly oppose this effort and urge the FCC to: a) keep government control out of the Internet, and, b) leave the legislating to Congress.

As a FREE citizen of these United States, FCC regulations of the airwaves and the internet are off limits to censorship, which is what net neutrality is! No one has the right to tell ANY of us what we can listen to or speak of!
Censorship is wrong and completely against what the founding fathers had envisioned. Those like Al Sharpton have NO RIGHT WHATSOEVER in determining who can express their views on the public airwaves or on the internet!

You will seriously rile the citiens of this country by attempting to STEAL control of the media, public airwaves and internet access through so called regulation. We are a constitutional republic, not a dictatorship! No one has the right to bypass Congress or the American people to silence a particular point of view.

The FCC does not have the authority to force such sweeping regulations on the free market. I strongly oppose this effort and urge the FCC to: a) keep government control out of the Internet, and, b) leave the legislating to Congress.

Remember, the consent of the people is leaning toward less government, less spending, more conservatism and stronger moral values as shown at the last election and will continue to grow and show at the next election.
