WC Docket No. 02-60

Rural Health Care Pilot Program

Quarterly Data Report – October 2012

Participant: NEW ENGLAND TELEHEALTH CONSORTIUM

1. Project Contact and Coordination Information
   a. Identify the project leader(s) and respective business affiliations.
   Brian Thibeau, President, NETC
   Chief Administrative Officer – Penquis
   b. Provide a complete address for postal delivery and the telephone, fax, and e-mail address for the responsible administrative official.
   Brian Thibeau
   New England Telehealth Consortium
   262 Harlow Street
   PO Box 1162
   Bangor, ME 04402-1162

   Telephone: (207) 973-3511
   Fax: (207) 973-3699
   Email: bthibeau@penquis.org

   c. Identify the organization that is legally and financially responsible for the conduct of activities supported by the award.
   New England Telehealth Consortium
   d. Explain how project is being coordinated throughout the state or region.
   The New England Telehealth Consortium has brought together a majority of the hospitals and their affiliates in Vermont, New Hampshire, and Maine. Totaling over 400 healthcare sites across the region, the consortium has received several FCLs in the last three months and is now building its network.

2. Identify all health care facilities included in the network.
   a. Provide address (including county), zip code, Rural Urban Commuting Area (RUCA) code (including primary and secondary), six-digit census tract, and phone number for each health care facility participating in the network.
   b. For each participating institution, indicate whether it is:
      i. Public or non-public;
      ii. Not-for-profit or for-profit;
      iii. An eligible health care provider or ineligible health-care provider with an explanation of why the health care facility is eligible under section 254 of the 1996 Act and the Commission's rules or a description of the type of ineligible health care provider entity.

Eligibility Explanation The Clara Martin Center is one of ten "designated agencies" (DA) created by state law and contracted with the State of Vermont Agency of Human Services to provide Community Mental Health services.

Community Counseling Center/295 Water Street

Address 295 Water Street, Suite 14 **City** Augusta **County** Kennebec **State** ME **ZIP** 04330

Telephone 207-874-1030 **RUCA** 4 **Census Tract No** 0103.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensed by the State of Maine

Community Counseling Center/343 Forest Avenue

Address 343 Forest Avenue **City** Portland **County** Cumberland **State** ME **ZIP** 04101

Telephone 207-874-1030 **RUCA** 1 **Census Tract No** 0015.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Mental Health Counseling and Case Management. Licensed by the State of Maine

Community Health and Counseling Services/Beech Grove Residential Facility (Children)

Address 47 Beech Grove **City** Glenburn **County** Penobscot **State** ME **ZIP** 04401

Telephone 207-947-0972 **RUCA** 1 **Census Tract No** 0200.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** No

Eligibility Explanation Residential programs that exist to primarily provide housing would be deemed an ineligible site. The residential programs operated by CHCS do not fall into this category. CHCS residential programs exist to primarily provide treatment services to support children and adults to be able to remain in less restrictive settings while working to transition to non-treatment living environments. The CHCS residential programs provide treatment services that are similar to outpatient services. The residential setting functions as the milieu to normalize treatment services to the greatest extent possible. Treatment is the primary emphasis of the residential programs with the housing component a secondary function. This facility is a treatment facility, not a long term care facility. Services are guided by a treatment plan and are designed to improve the child's functioning in daily living, emotional and physical capability in areas of daily living, community integration and interpersonal functioning. Modalities include group, family, and individual therapy, emotional development skill training focused on the child's behaviors and relationships with others, daily living skill training focused on areas of independent living, interpersonal skill training focused on social appropriateness and social integration, and community skill training. Licensed by Department of Health and Human Services, State of Maine, as a Mental Health Facility. This site is on the Medicare Cost Report of the healthcare provider.

Community Health and Counseling Services/Birchcrest (Children)

Address Fireroad 40A **City** Orono **County** Penobscot **State** ME **ZIP** 04469

Eligibility Explanation This entity supports administrative functions for Community Health and Counseling Services, a community mental health center, and as such is eligible. The health care provider cannot function without administrative office and does not do these functions internally (The definition of an eligible administrative site according to Rich Roller's spreadsheet sent 3/27/2008). This facility houses the Human Resources support function for delivery of all CHCS services. This site is on the Medicare Cost Report of the healthcare provider.

Community Health and Counseling Services/Husson Ave Residential Treatment Facility (Adult)

Address 107 Husson Ave **City** Bangor **County** Penobscot **State** ME **ZIP** 04401

Telephone 207-941-8552 **RUCA** 1 **Census Tract No** 0010.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** No

Eligibility Explanation Residential programs that exist to primarily provide housing would be deemed an ineligible site. The residential programs operated by CHCS do not fall into this category. CHCS residential programs exist to primarily provide treatment services to support children and adults to be able to remain in less restrictive settings while working to transition to non-treatment living environments. The CHCS residential programs provide treatment services that are similar to outpatient services. The residential setting functions as the milieu to normalize treatment services to the greatest extent possible. Treatment is the primary emphasis of the residential programs with the housing component a secondary function. This facility is a treatment facility, not a long term care facility. Services are guided by a defined, individualized, time-limited treatment plan with focuses on the individual's illness, strengths, and challenges and facilitates the establishment or regaining of functional skills; an increase in self understanding, crisis prevention and self management; the development of illness management skills; socialization and leisure skills, personal, emotional and social skills and roles, and other rehabilitation goals and objectives identified in the individual treatment plan. Licensed by Department of Health and Human Services, State of Maine, as a Mental Health Facility. This site is on the Medicare Cost Report of the healthcare provider.

The CHCS residential programs provide treatment services that are similar to outpatient services. The residential setting functions as the milieu to normalize treatment services to the greatest extent possible. Treatment is the primary emphasis of the residential programs with the housing component a secondary function. This facility is a crisis stabilization unit which serves as an alternative to inpatient psychiatric hospitalization. Services are guided by an individualized crisis stabilization plan which focuses on the individual's mental health issues and strengths. During the short-term stay, the individual is provided mental health treatment through tools and clinical supports necessary to begin the crisis stabilization process. Licensed by Department of Health and Human Services, State of Maine, as a Mental Health Facility. This site is on the Medicare Cost Report of the healthcare provider.

Waldo County General Hospital/Lincolnville Health Center

Address 2399 Atlantic Hwy **City** Lincolnville **County** Waldo **State** ME **ZIP** 04849

Telephone 207-236-4851 **RUCA** 10 **Census Tract No** **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Department of a Non-profit Hospital (WCGH)under the provisions of section 501(c)(3) of the Internal Revenue Code of 1954. Certified to operate as a hospital by State of Maine, Dept of Health.

Waldo County General Hospital/Searsport Regional Health Center

Address 37 Mortland Road **City** Searsport **County** Waldo **State** ME **ZIP** 04974

Telephone 207-548-2432 **RUCA** 10.4 **Census Tract No** 0420.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Department of a Non-profit Hospital (WCGH) under the provisions of section 501(c)(3) of the Internal Revenue Code of 1954. Certified to operate as a hospital by State of Maine, Dept of Health.

Waldo County General Hospital/Stockton Springs Regional Health Center

Address 11 Cape Jellison Road **City** Stockton Springs **County** Waldo **State** ME **ZIP** 04981

Telephone 207-567-4084 **RUCA** 10.4 **Census Tract No** **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Centers for Medicare & Medicaid Services (CMS) approved Medicare certified Rural Health Clinic (RHC)

Wentworth-Douglass Hospital - Dover

Address 789 Central Ave **City** Dover **County** Strafford **State** NH **ZIP** 03820

Telephone 603-740-2151 **RUCA** 1 **Census Tract No** 0815.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensed by the State of New Hampshire by the Department of Health and Human Services, Office of Program Support; Accredited by The Joint Commission (2008); 501 (c) 3 Public Charity; NTEE (National Taxonomy of Exempt Entities) Code = E22 Hospital

Wentworth-Douglass Hospital - Lee

Address 54 Calef Road, Route 125 **City** Lee **County** Strafford **State** NH **ZIP** 03824

Telephone 603-740-2151 **RUCA** 1 **Census Tract No** 0805.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** No

Eligibility Explanation Licensed by the State of New Hampshire by the Department of Health and Human Services, Office of Program Support; Accredited by The Joint Commission (2008); 501 (c) 3 Public Charity; NTEE (National Taxonomy of Exempt Entities) Code = E22 Hospital

West Central Behavioral Health

Address 9 Hanover St., Suite 2 **City** Lebanon **County** Grafton **State** NH **ZIP** 03766

Telephone 603-448-0126 **RUCA** 4 **Census Tract No** 9617.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** No

Eligibility Explanation This entity provides administrative support for eligible healthcare providers. Therefore the services that are checked on the questionnaire are the sum of all the services that are provided at the sites it supports. Because Connecticut Valley House (a site this entity supports) provides Residential Assisted Living, this item was checked on the questionnaire. However, this entity also supports fully eligble sites therefore it is fully eligible. This entity supports all administrative functions for eligible community mental health centers (West Central Behavioral Health/Arbor View, West Central Behavioral Health/Claremont Child and Family, West Central Behavioral Health/Claremont Recovery Center/Counseling Center, West Central Behavioral Health/Connecticut Valley House, West Central Behavioral Health/Counseling Center of Lebanon, West Central Behavioral Health/Counseling Center of Newport, West Central Behavioral Health/Lebanon Recovery Center), and as such is eligible. The health care providers cannot function without administrative office and do not do these functions internally (The definition of an eligible administrative site according to Rich Roller's spreadsheet sent 3/27/2008). These are the administrative offices that run all the above programs and clinics; includes billing, IT, Human resource and managerial staff.

West Central Behavioral Health/Arbor View

Address 163 Summer St. **City** Newport **County** Sullivan **State** NH **ZIP** 03773

Telephone 603-863-1785 **RUCA** 7.4 **Census Tract No** 9754.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Services include treatment and rehabilitation. This location is licensed by the NH Department of Public Health and certified by the NH Bureau of Behavioral Health.

West Central Behavioral Health/Claremont Child and Family

Address 18 Bailey Ave **City** Claremont **County** Sullivan **State** NH **ZIP** 03743

Telephone 603-542-5449 **RUCA** 4 **Census Tract No** 9759.02 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation This entity provides out patient mental health treatment for children, teens and their families; services include therapy, case management, psychiatric. This clinic operates under the agency designation as a private, not for profit community mental health center. We are one of ten agencies so designated by the State of New Hampshire, Bureau of Behavioral Health.

West Central Behavioral Health/Claremont Recovery Center/Counseling Center

Address 140 North Street **City** Claremont **County** Sullivan **State** NH **ZIP** 03743

Telephone 603-543-3118 **RUCA** 10 **Census Tract No** 9759.01 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation This entity treats adults with severe and persistent mental illness, substance abuse, or general psychiatric disorders; services include treatment and rehabilitation. The Vocational rehab this entity provides is ancillary to patient services. This clinic operates under the agency designation as a private, not for profit community mental health center. We are one of ten agencies so designated by the State of New Hampshire, Bureau of Behavioral Health.

West Central Behavioral Health/Connecticut Valley House

Address 7 Trinity Street **City** Claremont **County** Sullivan **State** NH **ZIP** 03743

Telephone 603-543-1182 **RUCA** 10 **Census Tract No** 9759.02 **Public?** Yes **Non-Profit?** Yes **Eligible?** No

Eligibility Explanation This entity is a community mental health center that provides both outpatient treatment and residential/long term treatment, making it partially eligible. This entity is licensed by the NH Department of Public Health and certified by the NH Bureau of Behavioral Health. The calculation of the part-time eligibility was based on the yearly income provided by healthcare services in each of these two categories (outpatient healthcare and residential/long-term healthcare).

West Central Behavioral Health/Counseling Center of Lebanon

Address 20 West Park St. **City** Lebanon **County** Grafton **State** NH **ZIP** 03766

Telephone 603-448-1101 **RUCA** 4 **Census Tract No** 9617.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation This entity provides treatment and psychiatric services for children, teens and families. This clinic operates under the agency designation as a private, not for profit community mental health center. We are one of ten agencies so designated by the State of New Hampshire, Bureau of Behavioral Health.

West Central Behavioral Health/Counseling Center of Newport

Address 167 Summer St. **City** Newport **County** Sullivan **State** NH **ZIP** 03773

Telephone 603-863-1951 **RUCA** 7.4 **Census Tract No** 9754.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation This entity provides treatment and psychiatric services for children, teens and families. This clinic operates under the agency designation as a private, not for profit community mental health center. We are one of ten agencies so designated by the State of New Hampshire, Bureau of Behavioral Health.

West Central Behavioral Health/Lebanon Recovery Center

Address 85 Mechanic St., Suite 860 **City** Lebanon **County** Grafton **State** NH **ZIP** 03766

Telephone 603-448-5610 **RUCA** 4 **Census Tract No** 9618.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation This entity treats adults with severe and persistent mental illness, substance abuse, or general psychiatric disorders; services include treatment and rehabilitation. The Vocational rehab this entity provides is ancillary to patient services. This clinic operates under the agency designation as a private, not for profit community mental health center. We are one of ten agencies so designated by the State of New Hampshire, Bureau of Behavioral Health.

York Hospital/15 Hospital Drive

Address 15 Hospital Drive **City** York **County** York **State** ME **ZIP** 03909

Telephone 207-363-4321 **RUCA** 2 **Census Tract No** 0360.01 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Berwick Medical Services

Address 4 Dana Drive **City** Berwick **County** York. **State** ME **ZIP** 03901

Telephone 207-698-6740 **RUCA** 1 **Census Tract No** 0320.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Kittery Family Practice

Address 22 Shapleigh Road **City** Kittery **County** York **State** ME **ZIP** 03904

Telephone 207-439-4430 **RUCA** 1 **Census Tract No** 0380.01 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Landmark Hill, Wende Pediatrics

Address 518 US Route1 **City** Kittery **County** York **State** ME **ZIP** 03904

Telephone 207-351-3510 **RUCA** 1 **Census Tract No** 0380.02 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Oncology Treatment Center

Address 127 Long Sands Road **City** York **County** York **State** ME **ZIP** 03909

Telephone 207-351-3777 **RUCA** 2 **Census Tract No** 0360.01 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Services at Kittery

Address 75 US Route1 Bypass **City** Kittery **County** York **State** ME **ZIP** 03904

Telephone 207-439-1880 **RUCA** 1 **Census Tract No** 0380.02 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/South Berwick Medical Services

Address 57 Portland Street **City** South Berwick **County** York **State** ME **ZIP** 03908

Telephone 207-384-8130 **RUCA** 1 **Census Tract No** 0350.00 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

York Hospital/Wells Regional Medical Services

Address 114 Sanford Road **City** Wells **County** York **State** ME **ZIP** 04090

Telephone 207-641-8060 **RUCA** 10.4 **Census Tract No** 0340.01 **Public?** Yes **Non-Profit?** Yes **Eligible?** Yes

Eligibility Explanation Licensing by the State of Maine Department of Human Services as an Acute Care Hospital and Certified by CMS as a Medicare Provider.

3. Network Narrative: In the first quarterly report following the completion of the competitive bidding process and the selection of vendors, the selected participant must submit an updated technical description of the communications network that it intends to implement, which takes into account the results its network design studies and negotiations with its vendors. This technical description should provide, where applicable:

The network design was completed in 2010. RFPs for the selection of providers to deliver network services, equipment, build management, and NOC operations were prepared and posted on USAC Website on January 25, 2011. NETC completed review, evaluation, and selection of vendors and finalized vendor contracts. Concurrently, staff prepared documentation and related forms for submission of a 466A package on RFP 01 to USAC for approval. Other 466A packages have been prepared and submitted. The first Funding Commitment Letter for FairPoint Communications was issued on April 12, 2012. The Funding Commitment Letter for ProInfoNet was issued on May 17, 2012. The Funding Commitment Letter for Windstream was issued on June 7, 2012. The Funding Commitment Letters for Cogent, HughesNet, Internet2, Oxford Networks, and segTEL were issued on June 28, 2012. The Funding Commitment Letter for the Internet2 Connector was issued on October 18, 2012.

a. Brief description of the backbone network of the dedicated health care network, *e.g.*, MPLS network, carrier-provided VPN, a SONET ring;

The NETC backbone will consist of dual Cisco high performance routers in Bangor, Maine and Lebanon, New Hampshire, interconnected via a multi-gigabit scalable Layer 2 Carrier Ethernet Service. NETC will implement a private MPLS overlay network to provide segmentation and interconnection services to HCPs. The core routers will be the termination points for all of the Layer 2 HCP connections. Advanced Layer 3 services will be provided by multiple Cisco routers. Additional routers at each backbone core location will act as Internet Edge router/aggregators and BGP route reflectors for BGP peering scalability.

b. Explanation of how health care provider sites will connect to (or access) the network, including the access technologies/services and transmission speeds;

Service hand-off from NETC to each participant site will be via Ethernet. HCP bandwidth options include 1.5, 3, 5, 10, 20, 30, 50, 100, 200, 500 and 1000Mbps. Each HCP will have a single physical connection to the transport provider network with a logical connection to each NETC backbone core location.

c. Explanation of how and where the network will connect to a national backbone such as NLR or Internet2;

Internet2 will partner with the Northern Crossroads (NoX), a current Authorized Internet2 Connector, to provide services to NETC. Internet2 will directly, or through a business relationship with the NoX, provide services to NETC at either of two locations or both locations – 300 Bent Street, 4th Floor, Cambridge, MA or 1 Summer Street, Suite 007, Boston, MA.

d. Number of miles of fiber construction, and whether the fiber is buried or aerial;

Services have been selected and NETC is not building any fiber as the network will be built on leased services.

e. Special systems or services for network management or maintenance (if applicable) and where such systems reside or are based.

The NETC Network Operations Center located in Bangor, ME will be using the following software applications:

- **SNMP monitoring of all interfaces on all devices**
- **Performance Monitoring**
- **Reporting Usage/performance**
- **Web based customer portal for trouble ticket reporting/tracking & performance reporting**
- **Trouble ticket tracking**
- **DNS (including hardware)**
- **AAA**

- **SysLog**
- **Testing & Certification**
- **Configuration Management**

4. List of Connected Health Care Providers: Provide information below for all eligible and non-eligible health care provider sites that, as of the close of the most recent reporting period, are connected to the network and operational.

Network is under construction, so it is not yet implemented nor is it operational – no sites are currently connected.

a. Health care provider site;
"None Connected"
b. Eligible provider (Yes/No);
"None Connected"
c. Type of network connection (*e.g.*, fiber, copper, wireless);
"None Connected"
d. How connection is provided (*e.g.*, carrier-provided service; self-constructed; leased facility);
"None Connected"
e. Service and/or speed of connection (*e.g.*, DS1, DS3, DSL, OC3, Metro Ethernet (10 Mbps);
"None Connected"
f. Gateway to NLR, Internet2, or the Public Internet (Yes/No);
"None Connected"
g. Site Equipment (*e.g.*, router, switch, SONET ADM, WDM), including manufacturer name and model number.
"None Connected"
h. Provide a logical diagram or map of the network.
"None Connected"

5. Identify the following non-recurring and recurring costs, where applicable shown both as budgeted and actually incurred for the applicable quarter and funding year to-date.

Network design has been completed with a non-recurring cost of $877,805. The build of the network is now underway. Please note that budget numbers represent TOTAL budgeted costs and have been updated to match approved FCLs.

a. Network Design
"Budget, $877,805, Actual, $877,805"
b. Network Equipment, including engineering and installation
"Budget, $2,935,882.68; Actual, $0"
c. Infrastructure Deployment/Outside Plant
"Budget, $0; Actual, $0"
i. Engineering
"Budget, $0; Actual, $0"
ii. Construction
"Budget, $0; Actual, $0"
d. Internet2, NLR, or Public Internet Connection
"Budget, $696,620.00; Actual, $0"
e. Leased Facilities or Tariffed Services
"Budget, $20,896,155.00; Actual, $0"
f. Network Management, Maintenance, and Operation Costs (not captured elsewhere)
"Budget, $5,031,360.00; Actual Quarter, $481,675.96, Actual funding year to-date, $481,675.96"
g. Other Non-Recurring and Recurring Costs
"Budget, $0; Actual, $0"

6. Describe how costs have been apportioned and the sources of the funds to pay them:

Network design was completed and each participating site, whether eligible or non eligible, was assessed its equal share of the 15% match required. Network Build Management, NOC Build Management, and NOC Operational costs have been apportioned to eligible sites at 15% and to non-eligible sites at 100%.

a. Explain how costs are identified, allocated among, and apportioned to both eligible and ineligible network participants.

Network design costs were allocated and apportioned equally to each site, whether eligible or ineligible. Network Build Management, NOC Build Management, and NOC Operational costs have been apportioned to eligible sites at 15% and to non-eligible sites at 100%.

b. Describe the source of funds from:

i. Eligible Pilot Program network participants

Eligible network participants have each paid an equal share of the 15% match for Network Design and are now paying 15% for network build and NOC build management, and NOC management.

ii. Ineligible Pilot Program network participants

Ineligible network participants have each paid an equal share of the 15% match for Network Design and are now paying 100% for network build and NOC build management, and NOC management.

c. Show contributions from all other sources (*e.g.*, local, state, and federal sources, and other grants).

i. Identify source of financial support and anticipated revenues that is paying for costs not covered by the fund and by Pilot Program participants.

Administrative costs for NETC have been funded by dues assessed on each healthcare site. To date over 2.0 million dollars have been spent in administrative costs since 2007 to comply with FCC/USAC regulations and procedures.

ii. Identify the respective amounts and remaining time for such assistance.

N/A

d. Explain how the selected participant's minimum 15 percent contribution is helping to achieve both the selected participant's identified goals and objectives and the overarching goals of the Pilot Program.

At this time, participants' contributions have allowed the envisioned network to actually be designed. Scoping documents to build and operate the designed network were prepared and posted on the USAC website on January 25, 2011. NETC completed its review and selection of vendors that submitted proposals in response to the RFPs and has finalized contracts with selected vendors. The first Funding Commitment Letter for FairPoint Communications was issued on April 12, 2012. The Funding Commitment Letter for ProInfoNet was issued on May 17, 2012. The Funding Commitment Letter for Windstream was issued on June 7, 2012. The Funding Commitment Letters for Cogent, HughesNet, Internet2, Oxford Networks, and segTEL were issued on June 28, 2012. The Funding Commitment Letter for the Internet2 Connector was issued on October 18, 2012. Participant contributions will enable NETC to complete the network build and to operate the network which will save participants in excess of $150 MM during the next ten years.

7. Identify any technical or non-technical requirements or procedures necessary for ineligible entities to connect to the participant's network.

Ineligible entities are being required to pay 100% of all costs associated with their respective establishments in order to connect to the New England Telehealth Consortium network.

8. Provide an update on the project management plan, detailing:

a. The project's current leadership and management structure and any changes to the management structure since the last data report; and

NETC President: Brian Thibeau (CAO – Penquis, Bangor, Maine)
NETC Vice President: Red Hutchinson (CIO (retired), LRG Healthcare, Laconia, New Hampshire)
NETC Secretary: Charlie Kimball (CTO (retired) – Eastern Maine Healthcare, Brewer, Maine)
NETC Treasurer: Tim Smith (CFO - Webber Energy, Bangor, Maine)
NETC At Large: Daniel Burgess (CIO, MaineGeneral Health, Augusta, Maine)

NETC At Large: Mary Beth Eldredge (Director, Dartmouth-Hitchcock Medical Center, Lebanon, New Hampshire)

b. In the first quarterly report, the selected applicant should provide a detailed project plan and schedule. The schedule must provide a list of key project deliverables or tasks, and their anticipated completion dates. Among the deliverables, participants must indicate the dates when each health care provider site is expected to be connected to the network *and operational*. Subsequent quarterly reports should identify which project deliverables, scheduled for the previous quarter, were met, and which were not met. In the event a project deliverable is not achieved, or the work and deliverables deviate from the work plan, the selected participant must provide an explanation.

Work Plan

1. **Conduct the initial network design studies for the consortium that will: address the needs of its Members and their respective healthcare sites; determine how to deploy an efficient and private broadband regional telehealth network that includes multiple locations and various technologies; determine Internet2 connectivity *(Completed: June 2010)***
   a. **Needs Assessment**
   b. **Determine current Telehealth and Telemedicine Applications**
   c. **Determine needed Telehealth and Telemedicine Applications**
   d. **Determine the current LAN and WAN infrastructure at sites**
   e. **Determine needed bandwidth**
   f. **Determine security requirements**
   g. **Determine redundancy requirements**
   h. **Determine Quality of Service requirements**
   i. **Determine how to connect sites' existing network to the new consortium network**
   j. **Determine Internet2 connectivity requirements for each healthcare site**
   k. **Determine Internet2 connectivity for the entire network**
   l. **Determine Telehealth and Telemedicine applications available on Internet2 that will be used by sites on the network**
2. **Determine the final network design *(Completed: June, 2010)***
   a. **Incorporate the results of the site needs assessment in the WAN design**
   b. **Engineer the network structure**
   c. **Engineer Internet2 connectivity**
   d. **Engineer Layer 1 through 7 requirements**
   e. **Determine WAN Service topologies that best fit the consortium needs, is commercially available, and cost effective**
   f. **Determine sites that need alternate WAN technologies due to remote location or mobility (i.e. Healthcare trucks and ships)**
   g. **Determine and design network equipment requirements**

h. **List the network connectivity requirements (bandwidth, encryption, Quality of Service, redundancy) for each site.**

3. **Ensure compliance of consortium with USAC Rural Health Care program procedures (Estimated: anticipated to occur approximately 180 days following USAC authorization to proceed with RHCPP funding.)** ***(Scoping documents for network services, management, and equipment were drafted and posted on the USAC website in January, 2011. Proposals received have been analyzed and the most cost effective vendors have been selected. Contracts with vendors have been finalized. NETC has received several FCLs, confirming that NETC has complied with RHCPP procedures.)***

   a. **Appoint the USAC process manager**

   b. **Determine the criteria for "most cost effective bids". The most cost effective method is the method of least cost after consideration of the features, quality of transmission, reliability, and other factors relevant to choosing a method of providing the required services.**

   c. **Write Request For Proposals' (bids) for WAN Services and WAN Infrastructure**

4. **Manage the Implementation (Infrastructure Deployment) of the Network (Estimated: approximately 12 months following USAC authorization to proceed with RHCPP funding.)** ***(Scoping documents for network services and equipment were drafted and posted on the USAC website in January, 2011. NETC has finalized contracts with selected vendors and has submitted required documentation and related forms to USAC for funding commitment letters, all but one of which has been issued. Network build is now underway.)***

   a. **Assign Project Managers**

   b. **Manage vendor implementation meetings**

   c. **Flow Chart implementation schedule**

   d. **Assign implementation team members**

   e. **Schedule implementation team members**

   f. **Finalize WAN services and infrastructure details for each site in network (bandwidth, location, encryption, QoS, addressing schema, I2 integration)**

   g. **Schedule and oversee equipment configuration, burn in, and distribution**

   h. **Coordinate WAN services, WAN infrastructure, and Internet2 vendors**

   i. **Coordinate Telehealth and Telemedicine applications that will be implemented on the network**

9. Provide detail on whether network is or will become self sustaining. Selected participants should provide an explanation of how network is self-sustaining. **The following is the current NETC Sustainability Plan that has been revised to reflect actual projected costs now that service, management, and equipment vendor contracts have been finalized.**

<u>New England Telehealth Consortium Sustainability Plan</u>

I. Minimum 15% Funding Match

- In order to be a participant in New England Telehealth Consortium, each eligible healthcare entity was required to sign a contract pledging payment of the 15% match per the rules of the Rural Health Care Pilot Program.

II. Sustainability Plan

- NETC is planning a sustainability period of 10 years. Based on our network design, NETC plans to use the RHCPP award primarily to purchase leased network services. We have been successful in leveraging our size and our RHCPP award to get very competitive. Responding vendors have separated network services pricing into a non-recurring component and a recurring component. The non-recurring component will be paid at the installation of the circuit. For eligible sites, the non-recurring component will be paid with NETC's RHCPP 85% cost reimbursement money, in addition to eligible sites 15% contribution. Ineligible sites will pay 100% of the non-recurring component. The recurring component for landline circuits will be paid by each NETC site – whether eligible or ineligible – without any RHCPP reimbursement. Ineligible sites will pay their fair share of network common costs. These very competitive rates will make the network affordable and NETC expects to be able to continue to offer very affordable network services for a 10 year period.

III. Principal Factors

- The New England Telehealth Consortium (NETC) will ensure the sustainability of the network by ensuring the future of the Consortium itself. NETC's network sustainability is based on creating a common vision, mission and strategic plan for growth that is agreed, understood and supported by consortium members, other participating organizations and the public.
- The principal factors of the NETC sustainability plan are as follows (see attached budget):
    - Based on NETC negotiated network pricing, NETC has established an affordable price-point for network participation which will provide significant savings to NETC Health Care Providers. The savings from the difference between existing high priced circuits and low priced NETC circuits will be used to support the network over the 10 year sustainability period.
    - Although a limited number of NETC sites have used the regular Rural Health Care (RHC) program, many of the NETC sites have not used the regular RHC program in the past. Due to the very rural nature of most of the sites in Maine, New Hampshire and Vermont, NETC expects that many participating entities will qualify for the regular RHC program. While NETC projects that the negotiated network pricing will be affordable for participants during and after the RHCPP funding period, NETC plans to pursue funding from the regular RHC program for all eligible entities in order to help make the cost of the network even more affordable, further bolstering our sustainability assumptions.
    - NETC plans to build capacity among members by using existing resources already developed by members to the fullest potential. Those resources include, but are not limited to, shared telehealth and telemedicine services, research, clinical expertise, IT resources, and educational opportunities. NETC believes that by sharing these resources among partners through collaborative efforts in the NETC network, healthcare and certain operational costs will be reduced which will increase affordability and help cost-justify ongoing network expenses beyond the RHCPP award.

The reduction of healthcare and certain operational costs and the economic benefits brought about through health information technology networks are well known and well documented. The US Department of Health and Human Services Agency for Healthcare Research and Quality (AHRQ), includes a "Health Information Technology Costs and Benefits Database Project" containing many articles outlining the dramatic economic benefits of Health Information Technology. [1] In addition, Health InfoNet, a collaborative e-health project in Maine, includes on their web site a compilation of articles that highlight the economic value of electronic health information exchange.[2] Regarding e-prescribing, some studies estimate a savings for the Federal Government of up to $26 billion in just the Medicare program.[3] Finally, we are aware that other projects have enabled the pooling of IT resources among critical access hospitals thereby reducing costs and enabling rural hospitals to maintain their autonomy and independence from larger health systems. Some NETC participants will similarly use the NETC network to share IT resources and thereby reduce costs.

- NETC plans to expand opportunities for additional healthcare providers to participate in the NETC network. The future participation of additional healthcare providers will bring in additional revenue to help fund network common costs during the 10 year sustainability period.

- Obtain diversified funding to ensure the future of the Consortium and promote growth. NETC has and will continue to work to secure additional grants to help support the network over the 10 year sustainability period.

- Measuring and evaluating activities with the intention of continuous improvement and growth. It is our hope that continued growth and improvement in the network and use of the network will continue to reduce network costs and bring in additional revenue.

- NETC will continue to build a constituency of supporters throughout the three states including healthcare professionals, elected officials, business leaders, religious leaders, neighborhood and civic leaders, local foundation leaders, educational leaders and others. It is our hope that this constituency of supporters will help the NETC network to grow which will bring in additional healthcare providers and revenue to help fund network common costs during the network over the 10 year sustainability period.

IV. Terms of Membership in the Network

- New England Telehealth Consortium members are comprised of not-for-profit healthcare organizations as well as for-profit healthcare organizations. To be eligible for cost reimbursement funding under the Pilot Program, sites had to meet the requirements of the 1996 Act, Section 254H7B and applicable amendments by the FCC which defines "health care provider" as: post-secondary educational institutions offering health care instruction, teaching hospitals, and medical schools; community health centers or health centers providing health care to migrants; local health departments or agencies; community mental health centers; not-for-profit hospitals; rural health clinics; and consortia of health care providers consisting of one or more entities described above. Ineligible organizations have agreed by contract to pay 100% of network costs and eligible organizations have agreed to pay 15% of network costs in order to participate in the NETC network.

V. Ownership Structure

- NETC plans to use the RHCPP award to purchase leased network connections, to provision a network operations center (NOC) and certain networking equipment, and to provide network management services. The network connections will be owned by the carrier providing the leased network connections and NETC will pay for the use of this connectivity under a 48 month contract that will provide for guaranteed pricing for the contract term, with two three year renewal options. The space for the network operations center will be leased and these costs will be born 100% by NETC outside of the RHCPP. Routers at each NETC service location will be purchased by NETC on behalf of NETC participants, both eligible and ineligible. Routers at the core will be owned and maintained by NETC on behalf of NETC participants. Using a NETC fair share formula that applies to all common costs, ineligible participants' share of common costs will not be supported by the RHCPP. NETC ownership and control of the NOC will ensure NETC is not totally dependent on a single service provider for network connectivity or network management services.

- NETC is provisioning no excess capacity for the network. NETC will have common costs that will be borne by eligible and ineligible participants alike. Common costs will include a share of the costs of the NOC, equipment at the network core, common network connections (e.g., Internet2 and Commodity Internet), and of network implementation and management services that are incurred on a network-wide level. Common costs are allocated to NETC participants based on the bandwidth of their connection to the network. Thus participants with bandwidth of 1-10Mb will pay a 1x share of common costs; participants with bandwidth of 11-49Mb will pay a 4x share; and participants with bandwidth of 50-1000Mb pay a 20x share of common costs. This ensures that each participant, whether eligible or ineligible for RHCPP support, will pay a fair share of their network common costs.

VI. Sources of Future Support

- Because of the substantial pricing reductions negotiated during the competitive bidding process, the NETC network will be sustainable for 10 years. The carrier providing the network connections has guaranteed pricing for 48 months with NETC having the option renew the agreement for two three year periods. The Healthcare providers have committed by contract to pay ongoing network fees – for both connectivity and common costs – for similar periods. While NETC participants may avail themselves of regular RHC program support after the 48 month RHCPP funding period ends, the sustainability model is not dependent on this support. NETC participants' ability to support the

connections and payment of common costs will come in large part from the fact that they will be paying substantially less for the same level of connectivity that they now enjoy. In the event they are upgrading the size of their connections, in most cases they will be able to do this without significantly increasing the costs they are paying now for inferior connections.

VII. Management

- New England Telehealth Consortium is a 501(c) 4 non-profit corporation. The principal purpose of the corporation is to create a consortium of healthcare providers for the purpose of designing and implementing a private broadband regional telehealth network with Internet2 connectivity; to link regional healthcare providers with urban public practices, research institutions, academic institutions, and medical specialists to provide greater efficiency in the sharing of information relevant to healthcare applications; to provide a shared broadband network with healthcare providers thereby increasing and validating telehealth and telemedicine opportunities in the region; to provide healthcare providers in rural areas with greater and easier access to current research, advances in medicine, expert support and team consults; to allow healthcare providers in the region access to a common network for provision of electronic health records, remote medical diagnostics, telehealth, telemedicine, population health database, remote surgery, teledentistry, telepsychiatry and behavioral health treatment.

- NETC management costs are funded by participant dues as set annually by the NETC Board of Directors. Participant dues paid to NETC in 2011 totaled $709,367. Dues for 2012 and beyond are expected to continue to be sufficient to cover NETC administrative costs.

10. Provide detail on how the supported network has advanced telemedicine benefits:
At present, NETC is unable to advance any benefits. The initial scoping document and resulting bid process did not meet USAC approval. NETC revised its scoping document, received USAC approval, and it was posted. NETC Executive Committee members reviewed proposals received by the October 22, 2009 proposal submission deadline. Documentation was prepared and a 466-A and related materials were submitted to USAC. On January 21, 2010, USAC issued NETC its first Funding Commitment Letter (FCL). Subsequently, NETC submitted a letter of intent and a form 467 on January 26, 2010. NETC received the Health Care Provider Support Acknowledgement Letter (SAL) and began work on the Network Design. The Network design was completed in June 2010. NETC Executive Committee, Board of Directors, and management drafted scoping documents to build and manage the network. NETC submitted its site list, RFPs and related documents for USAC pre-review in October 2010 and uploaded its 465 and 465 Attachments for RFPs 01 & 02 on January 20, 2011, to the RHCPP SharePoint site. USAC posted the NETC RFPs to its public site on January 25, 2011. NETC has now finalized contracts with selected vendors. Forms 466A and related documents for seven (7) vendors were submitted to USAC. The first Funding Commitment Letter for FairPoint Communications was issued on April 12, 2012. The Funding Commitment Letter for ProInfoNet was issued on May 17, 2012. The Funding Commitment Letter for Windstream was issued on June 7, 2012. The Funding Commitment Letters for Cogent, HughesNet, Internet2, Oxford Networks, and segTEL were issued on June 28, 2012. The Funding Commitment Letter for the Internet2 Connector was issued on October 18, 2012. Due to the delays experienced with the complex USAC process, NETC filed a six months extension request with the FCC and the FCC approved a one year extension through June 30, 2012. With the FCLs in hand, NETC is now constructing its network which it expects to complete within twelve months.

NETC staff and management have invested many thousands of hours into procuring and administering the NETC project, none of those costs are or have been eligible for RHCPP funding. To date, NETC members have expended over $2,000,000 in administrative costs and have yet to receive any tangible benefit. The processes set up by the FCC and USAC for the Rural Health Care Pilot Project must be streamlined.

a. Explain how the supported network has achieved the goals and objectives outlined in selected participant's Pilot Program application;

"None achieved to date."

b. Explain how the supported network has brought the benefits of innovative telehealth and, in particular, telemedicine services to those areas of the country where the need for those benefits is most acute;

"No benefits to date, only excessive administrative costs."

c. Explain how the supported network has allowed patients access to critically needed medical specialists in a variety of practices without leaving their homes or communities;

"No access provided to date."

d. Explain how the supported network has allowed health care providers access to government research institutions, and/or academic, public, and private health care institutions that are repositories of medical expertise and information;

"No access provided to date."

e. Explain how the supported network has allowed health care professional to monitor critically ill patients at multiple locations around the clock, provide access to advanced applications in continuing education and research, and/or enhanced the health care community's ability to provide a rapid and coordinated response in the event of a national crisis.

"No such benefits to date."

11. Provide detail on how the supported network has complied with HHS health IT initiatives:

The New England Telehealth Consortium anticipates complying with HHS health IT initiatives, however, since the network is under construction, this has not occurred.

a. Explain how the supported network has used health IT systems and products that meet interoperability standards recognized by the HHS Secretary;

"To Be Determined"

b. Explain how the supported network has used health IT products certified by the Certification Commission for Healthcare Information Technology;

"To Be Determined"

c. Explain how the supported network has supported the Nationwide Health Information Network (NHIN) architecture by coordinating activities with organizations performing NHIN trial implementations;

"To Be Determined"

d. Explain how the supported network has used resources available at HHS's Agency for Healthcare Research and Quality (AHRQ) National Resource Center for Health Information Technology;

"To Be Determined"

e. Explain how the selected participant has educated themselves concerning the Pandemic and All Hazards Preparedness Act and coordinated with the HHS Assistant Secretary for Public Response as a resource for telehealth inventory and for the implementation of other preparedness and response initiatives; and

"To Be Determined"

f. Explain how the supported network has used resources available through HHS's Centers for Disease Control and Prevention (CDC) Public Health Information Network (PHIN) to facilitate interoperability with public health and emergency organizations.

"To Be Determined"

12. Explain how the selected participants coordinated in the use of their health care networks with the

Department of Health and Human Services (HHS) and, in particular, with its Centers for Disease Control and Prevention (CDC) in instances of national, regional, or local public health emergencies (*e.g.*, pandemics, bioterrorism). In such instances, where feasible, explain how selected participants provided access to their supported networks to HHS, including CDC, and other public health officials.
The NETC network is not yet operational, so participants are not yet coordinating their use with any other entities.
