DOCKET FILE COPY ORIGINAL

Dear Sir

With the proliferation of cellular telephones, it has occured to me that there is an additional service that is needed.

As a senior citizen I often wonder if I were to buy a cellular phone if it would not be a very helpful device in the case of accidents, emergencies, etc. However I am unwilling to pay a monthly service for only occasional usage. I would be willing to pay for each call, say, $5.00 to $10.00 per call. Many others agree with me.

Please keep this in mind when regulations are altered or added.

Very truly yours
B. H. Robertson
