U.S. County Visualizer Overview

The MapTechnica.com U.S. County Visualizer is a free online tool that overlays the U.S. county and county-equivalent (parish and borough) boundaries tabulated by the U.S. Census Bureau over a Google Map. To use the tool, enter either county and state, or a 5-digit ZIP code and hit "go."

Tool Usage and Purchase Information

Usage of this online tool is free of charge, but is limited to a reasonable number of page views per day. If you require the U.S. County and County-Equivalent tile overlays for your custom mapping application, the tile set is available for purchase from **MapTechnica.com's Products Page (/map_product_finder.php)**.

Technical Details

The U.S. County Visualizer displays county and county-equivalent boundaries for the entire Continental United States, Alaska, Hawaii, and Puerto Rico. The tile set includes county maps supporting a maximum Google Maps zoom level of 12.

The underlying data was rendered from the **U.S. Census Bureau's 2009 TIGER/Line® Shapefiles (http://www.census.gov/geo/www/tiger/tgrshp2009/tgrshp2009.html)**.

The entire MapTechnica.com U.S. County and County-Equivalent tile set consists of nearly 1 million tiles totalling over 3 Gigabytes of data. (If you're wondering, we're capably hosted by **MediaTemple (http://www.mediatemple.net/go/order/?refdom=stringersites.com)**.)

For more technical information and details about MapTechnica.com, please visit our **About MapTechnica.com page (/about.php)** or visit our **Frequently Asked Questions (/map_faq.php)** page.
