Appeal
CC Docket No. 02-6

Marlene H. Dortch, Secretary
Federal Communications Commission
Office of the Secretary
445 12th Street, SW
Washington, DC 20554

To Whom It May Concern:

We are filing an Appeal of an Administrator's Decision on a Commitment Adjustment on behalf of the Coolidge Unified School District #21 for Funding Year 2010.

Billed Entity: Coolidge Unified School District #21
Billed Entity Number (BEN): 142928
Form 471 Application Number: 715768
FRN: 1993528
Administrator's Decision on Commitment Adjustment Date: July 1, 2013

Request for Review filed by:
Nicely Done Consulting, LLC
Ernest N. Nicely, Partner
3820 W Happy Valley Road

Reason for Denial of Funding Request:

"After a thorough investigation, it has been determined that this funding commitment must be rescinded in full. During a review, it was determined that the price of eligible products and services was not the primary factor in the vendor selection process. This determination was based on the review of the bid prices which were provided by the consultant. The review determined that the primary· factor based on comparison of bid prices included both eligible and ineligible items. FCC rules require that applicants select the most cost-effective product and/or service offering with price being the primary factor in the vendor selection process. Applicants may take other factors into consideration, but in selecting the winning bid, price must be given more weight than any other single factor. Ineligible products and services may not be factored into the cost-effective evaluation. Since price was not the primary factor in the vendor selection process, the commitment has been rescinded in full and USAC will seek recovery of any improperly disbursed funds from the applicant."

Basis of Appeal:

The information provided in each of the service provider's proposals was insufficient for either the applicant or the Selective Review reviewer to determine which costs or which portions of any costs may or may not have been ineligible with any degree of certainty or accuracy. The service providers did not identify any of their costs as "ineligible" within the proposals submitted. Without having integral knowledge of the service provider's offerings neither the applicant nor the Selective Review reviewer could calculate ineligible cost allocations based on the proposals received. Therefore it was not possible for the applicant to separate these costs out for the evaluation process.

Further, FCC Rules require that "Price" be considered as the primary factor during the evaluation process; and that the bid selected is the "most cost effective service offering." FCC Rules do not reference "Price of Eligible Services" as the primary factor. The following paragraphs are excerpted from the FCC Rules and presented here for your convenience in support of this consideration:

§ 54.503 Competitive bidding requirements.

(2) (vii) All bids submitted for eligible products and services will be carefully considered, with price being the primary factor, and the bid selected will be for the most cost-effective service offering consistent with § 54.511.

§ 54.504 Requests for services.

(1) (xi) All bids submitted to a school, library, or consortium seeking eligible services were carefully considered and the most cost-effective bid was selected in accordance with § 54.503 of this subpart, with price being the primary factor considered, and is the most cost-effective means of meeting educational needs and technology plan goals.

§ 54.511 Ordering services.

(a) Selecting a provider of eligible services. In selecting a provider of eligible services, schools, libraries, library consortia, and consortia including any of those entities shall carefully consider all bids submitted and must select the most cost-effective service offering. In determining which service offering is the most cost-effective, entities may consider relevant factors other than the pre-discount prices submitted by providers, but price should be the primary factor considered.

The Sixth Report and Order reinforced that "Price" is to be the primary factor. There is no reference to "Price of Eligible Services" being used as the primary factor.

Sixth Report and Order

55. After submitting an FCC Form 470, the applicant must wait at least 28 days before making a commitment with its selected service providers. The applicant must consider all submitted bids prior to entering into a contract and price must be the primary factor in selecting the most cost effective proposal.163 The Commission's competitive bidding requirements apply in addition to state and local competitive bidding requirements, and are not intended to preempt such state and local requirements.

The applicant evaluated all responsive bids according to the published FCC Rules and selected the most cost effective proposal considering Price as the primary evaluation factor.

Background:

The 2010 Funding Year funding request was based on an award using a Form 470 process during November 2009 through January 2010. The procurement process used was a formal advertised sealed RFP process. It is important to note that prospective web hosting service providers had not yet had their services analyzed in order to establish the percentage of their costs that were determined by USAC to be eligible. Additionally, the prospective service vendors did not identify any of their costs as ineligible, or what percent of any of the costs identified that were ineligible. It cannot be incumbent upon the applicant to make assumptions in the identification of those costs, and risk treating a prospective service provider's proposal unfairly. This is especially true with a sealed RFP Response process where communication with service providers is limited, and manipulation of pricing after proposal submittal is not allowed without a Best and Final Offer process.

There may be activities within an otherwise ineligible category that would be an eligible cost. For example, using the costs identified in the 2010 funding year procurement in question, School Webmasters eligible costs would be determined to be $178,200.00 and ineligible costs presumably to be $64,000.00. This would result in 73.6% of their total costs being eligible. However, their true percentage of eligibility, as determined presently by USAC is 88%. Clearly by analyzing the specific offerings and services provided by School Webmasters, some costs that on the broad category may appear to be ineligible have been determined to indeed be eligible.

Furthermore, the Eligible Services List for the 2010 Funding Year was of no assistance to the applicant; it states on page 9: "Some web hosting services may include ineligible features, such as software applications, end-user file storage, and content editing features." The service provider proposals did not include any of these services.

Without the ability to identify fairly the ineligible costs, any different evaluation or outcome would be speculation.

Corrective Measure:

The applicant maintains that the evaluation process used was a fair and open process, based on the facts that were presented by the service providers and according to published FCC Rules. The award was made to the most cost effective proposal considering Price as the primary evaluation factor. The Applicant respectfully requests that the Administrator's Commitment Adjustment decision be reversed and that the funding should be restored as originally committed.

Supporting Documentation:

- The applicant evaluation matrices and notes used to determine award
- Please Note: the service provider proposals are too large to be transmitted using the ECFS and will be provided upon on request.

Additional Supporting Statement:

For many applications every year, ineligible services are identified during the Program Integrity Assurance Review process that were previously not identified on the application, and whose costs were included in the "Cost of Eligible Services" during the evaluation process. It is common practice that the reviewer asks the applicant to cost allocate those services identified at that time. The reviewer does not deny the funding request declaring that the evaluation process was not compliant with FCC Rules because the cost of ineligible services was included in the primary evaluation factor. The determination by the Selective Review reviewer for FRN 1993528 is in conflict with the generally accepted practices of USAC itself.

Thank you,

Ernest N. Nicely

	RFP: 10-211-15 Project: Webhosting and Design Services	Page 1 of 1	

1. **Evaluation Criteria**

The evaluation criteria are listed below in relative order of importance.

	Area of Evaluation	Points Available	Vendor A (School DESK)	Vendor B (School webmastr)	(School wire)	(Interactive Edu)
a.	**Cost** – While cost is a significant factor in considering the placement of the awards, it is not the only factor. The award will not be based on price alone, nor will it be based solely upon the lowest fees submitted.	500	2500	1550	475	0
b.	**Responsiveness of the proposal** in clearly stating and understanding the scope of work, and in meeting the requirements of the RFP. The vendor provides a dedicated project manager for this contract and the ability to manage multiple projects at the same time.	400	983	1864	883	0
c.	**Past performance and references.** References include both those provided and others the District may contact with regard to ERATE Specific Projects and K-12 school. This includes prior record of vendor performance, the quality of work, responsiveness to Districts' needs, problem resolution	350	1530	1700	805	200
d.	**Qualifications** of the offeror to provide the District with these services for the required period of time, provide appropriate staffing, provide necessary resources and show a history of demonstrated competence and the firm's team that will be assigned to work with the Districts.	300	950	1500	900	200
e.	**Quality, effectiveness & completeness of Solution.** Ability to provide complete solution, provide efficient and flexible solution, quality and effectiveness of webhosting solutions and approach, consistency of the proposed solution with the districts' needs. Ability to promptly provide updates to websites for posting jobs, updated news, and other information for parents and community members, such as H1N1 status.	250	770	1220	675	0
	Total Points	1,800 9000	6733	7834	3738	400

SCHOOL DESK

Everyone was pleased with the product.
Everyone was pleased with the service.
Everyone was pleased with the timliness of service.
3 mentioned "Rob" by name and mentined his involvement with issues.
2 mentions starting service with SchoolDesk when SchoolDesk was new...
a little rough but responsiveness and remedy were very good
1 incident due to unexpected load
Everyone please with transition.

Start-up issues	2 people - resolved quickly... not recurring
Timely -	all commented on how quick service is delivered
Billing	simple, correct, straight forward
Erate	all mentioned Rob assisted with this and it went smoothly
Teachers	Overall pleased...one mentioned tech savvy teachers wanting more creativity options
Site down	No one with issues ..one mentined his went down due to major trunk issue
Host proactive ?	Proactive to needs - looking for updates rather than waitin gon end user to suggest
Last minute content	Responsive and helpful with content
Value added	No charge for training, assistance with design

ALL

None…started with company when they were a start-up and initial load from school was larger than anticipated.
"Rob jumped through all of our hoops to accommodate us"…"last 2 years have been flawless"… "always responded"
"Very customizable"
"Updates whenever you ask" She had asked him to slow down a bit on updates so she could get use to the last one.
"Always looking to improve"
Not pleased with cover page but this is due to content and not service…Supt has designed page and she is not pleased with it.
"Teacher sites very easy to use"
