WARNING: This letter requires a timely response. You must respond to this letter with thirty (30) calendar days from the above date.

Dear Licensee:

In anticipation of the auction of unassigned Automated Maritime Telecommunications System (AMTS) spectrum, *see* Automated Maritime Telecommunications System Spectrum Auction Scheduled for September 15, 2004, *Public Notice,* 19 FCC Rcd 6274 (WTB 2004), the Federal Communications Commission's Wireless Telecommunications Bureau is reviewing the information in its licensing database regarding the construction status of licensed AMTS stations. The Commission's Rules require construction with a specified time frame (*see* Section 80.49 of the Commission's Rules, 47 C.F.R. § 80.49) in order for the license to remain valid. Specifically, when a licensee fails to construct its authorized facilities within the requisite construction period, the station license cancels automatically.

Our review of the licensing database indicates that we currently have no construction information regarding certain AMTS facilities for which you hold a license. We are writing this letter to offer you the opportunity to supplement the information on file concerning the construction status of these stations. For your convenience, the call signs and location numbers in question are listed in an attachment to this letter. Please review the stations/locations listed under each call sign and provide a response whether or not each site authorized has been constructed. If the site has been constructed, please provide the completion date. If the site has not been constructed, please so indicate in your response.

If you are not sure which authorized sites are in question, you may find this information via the Internet using the Universal Licensing System (ULS) at http://wireless.fcc.gov/uls. Please do not use your response to this inquiry to modify a license in any way.

You can reply to this inquiry by faxing your response to Kim Kleppinger at 717-338-2696 or by mail to Kim Kleppinger, WTB, PS&CID, 1270 Fairfield Road, Gettysburg, PA 17325. An authorized person of your company must certify to the accuracy of all responses by signing the form.

Sincerely,

Tracy Simmons
Associate Chief, Licensing Operation
Public Safety and Critical Infrastructure Division

Re: AMTS Construction Audit
(PS & CID – 666)

Dear Ms. Kleppinger:

Enclosed with this correspondence, please find the response by Mobex Network Services, LLC to the Public Safety and Critical Infrastructure Division's Construction Audit inquiry dated May 26, 2004. The attached response provides data for twenty-nine (29) specific additional operating frequencies/locations for several licenses.

Any questions regarding the attached may be addressed to the undersigned.

Sincerely,

Robert M. Gurss
