I am a resident of a mobile home park in Florida. I own my home and have exclusive use and control of my home. I rent lot space from the park owners who owns the real estate on which my home sits.

I request that the FCC state, in writing that the Rule adopted on August 5, 1996, applies to mobile home owners who own and are in exclusive control of their own homes, even if the home is located on a rental mobile home lot. Our mobile home park owner does not empower the video programming from direct broadcast satellite transmissions or other types of over the air reception devices, so I'm writing to help others who have this problem.

Thank you very much for your consideration.

Sincerely,
Miriam Delgado
