Re: FCC Docket # 97-296;
MM Docket # 97-1

EX PARTE OR LATE FILED

Dear Sir;
Please do not allow any Communications Towers to be built without an environmental impact study of the effect of the wires. In U.S. alone some 2 million to 4 million songbirds are killed each year. This can be avoided. Eliminate the wires! You can stop this slaughter!
Thank you -

Idalene F. Snead
Alabama Ornithological Society

Washington DC. 20554

Dear Mr Kennard EX PARTE OR LATE FILED

I want to go on record to oppose the FCC Docket No. 97-296 and I oppose MM Docket No 97-182

There have been two to five million birds killed by these high towers. It is very necessary to have environmental impact studies. Harriet H Wright
