I'm not in favor of the federal government ordering to help pay for affordable phone service for low income people as well as for discounted Internet hookups for schools, libraries and rural health-care providers. I am on a fixed retirement pension. I am a widow. If I don't pay my bills on time, I get a penalty. If the gas company get their gas on a high rate & we don't have cold weather, they still charge us as though the weather was bad. Look into that. The are increasing

our gas bill starting October 1, 1998. I wasn't home a month and had the my heat down at 55°. Got charge over $200.00. Do you think that is fair. You people live on a nice salary & vote for your increase on wage.

Congress should worry more about our goverment begin so generous with the tax payers money, Intead of giving it away.

I am not interested in our President's sex life. She could have said no and that would have ended it. (A waste of tax payers money.)

If Mr. Nixon hadn't taken money from the Social Security a bail out. SS wouldn't be in trouble.

Thank you,
