This is an informal comment regarding rm 9208 and rm 9242. I support the the legalization of microradio (low power fm).

There is a problem of media concentration of ownership of all commercial radio/TV and newsprint. Low power fm; kept non commercial could allow local community groups a mechanism to communicate topics of interest. It would allow people in rural areas additional entertainment not provided by their local commercial networks. It would allow students an opportunity to learn about radio.

Yours, Russ Todd
