Docket No. 96-45 7-13-1998

Dear Sirs:

DOCKET FILE COPY ORIGINAL

I'm quite disturbed about the "fee" that is being added to my phone bill - for low income people and a host of other things.

I'm not rich by any stretch of the imagination. I have to live on a fixed income and work things into my budget, if I want it. If I can't afford it - I do without. I think everyone else should do the same thing.
