NOTES:
Note 1: Usage data for Pre-Paid Calling Card Calls has been included in the Pre-Paid Collect Call Analysis. For each applicable location, the rates are the same for these calls types, making it unnecessary to break out call volume data.

Note 2: Location 169 has a mandated Time-of-Day rate structure that makes it impossible to calculate average revenue based on the available traffic data. Exclusion of this location causes the amount of the Intrastate Shortfall to be understated.

Note 3: Client ID numbers conform with numbers set forth in Exhibit B to Pay Tel's Petition for Waiver of Interim IC Rates filed Jan. 8, 2014. Out of sequence numbers represent additions to study. Use of "A" in combination with a numeric identifier connotes a new facility that is operated in conjunction with an existing client.
