Secretary Dortch,

May you be held in esteem and honored both here on earth and during a Great Day we all fill face. All good deeds that last forever are excellent and are better enjoyed.

It is important to exact permanent reform of prison phone rates for interstate and intrastate calls, including rate caps and the elimination of commission payments to correctional agencies.

I am making an arguement for improvement. In Pennsylvania, intrastate phone calls are still excessively expensive. A call from State Correctional Institution at Dallas to Philadelphia for 15 minutes is $5.15 (five dollars and fifteen cents) and I am a part of that 85% of those who only make intrastate calls. Certainly, there are signs for reform.
