Dear Secretary Dortch,

This is a public comment for wc Docket # 12-375. I am writing this to express the difficulties and hardship that my family and I are having communicating, due to the high cost of the in-state calls here at the San Diego county Jail using "Securus". To accept a call through a line which has a setup account charges three dollars automaticaly and for calls through my debit account is sixty cents for the first minute and twenty-five cents for each additional minute and before I know my accont is empty which really makes it hard to communicate with my fiancé and family especially with the loss of income since I'm not there to contribute/support my family with rent and bills. If you could please help us by lowering rates for set-up fees, ancillary fees, prepaid or debit fees for instate calls it would make a huge different and great financial relief during these difficult times. Thank you for your time and consideration.

Sincerely
Edgar I Gutierrez
