Grievance phone Co. GTL

Dear Secretary Dortch

I am writing this letter in reference to the inmates here at the Lubbock County Detention Center here at 3502 No Holly PO Box 10535 Lubbock Texas 79408-3535 where the jail has a contract with the GTL 800-483-8314 w.w.w connectnetwork com. 866-230-7761 thats operated by a Mr. Sam Clare and GTL Jeff that I know of heres the problem we are experiencing here one of these two staff or both are emailing the personal phone calls to the Lubbock District Prosecutor Office here at 904 Broadway Lubbock Texas 79401 and when you appear for a Pre Trial Hearing as your attorney who is fully aware of whats going on tells you what you said in prior phone calls thats tampering with evidence these calls are forcing inmates to plea out to cases are theft where they have been charged with "Burglary of Habitation," and most times you put 3$ on the phone and call the phone will cut off you go back to see what the balance is the phone has taken the balance of what you put on there they do not refund the balance.

Again to record these calls are a invasion

of privacy to do such the Capt Finley response to say if you listen to the "recording when you call it advises you that this call will be recorded prompt done through the attorney for security purposes. which has a line personal on the phone at all time, this has nothing to do with Breaching the privacy of personal calls. if you would like a copy of the grievancy that was filed no problem its a "invision of privacy" and what can the inmates of this jail do to prevent what the know they should not being doing any may.

Thank you in advance for your time and consideration in this matter.

Respectfully
