DOCKET FILE COPY ORIGINAL

Yes: Im writing you all pertaining to the outrageous phone price's here in the State of Louisiana. It's sad that we're right here at home, and we have to pay over two dollar's for connection fee, and even more per minute in order to talk to our love one's.

Just recently, they've raised the price on the phone call's. But yet, we can call anywhere outside of the State for less than three dollar's, for the entire fifteen minute call.

That's not fair, nor should it be allowed in any State. It's already hard on our friend's and love one's, for the phone company's to take advantage of them, in order for them to be allowed to conversate with ~~the~~ over the phone.

Just like they've made it possible for out of State call's to be reasonable; there should be interstate pervision's for reasonable phone call's for our family and personal purchase's. All local call's should be at a reasonable price.
