Latest View of Universal Service Fund Data

Dear Ms. Dortch:

NECA is submitting the latest view of Universal Service Fund Data for the 2011-x, 2012-x, and 2013-x periods as requested by Federal Communications Commission staff in connection with analyses related to recently adopted universal service reforms. This data includes all changes, namely corrections for errors and omissions and Average Schedule company to Cost company conversions, reported during the past three months, and reflects the data as of July 2015 processing.

Three average schedule data files and three cost company data files, (i.e., one data file for each company type for each of the three years), are being submitted.

All correspondence and inquiries concerning this filing should be addressed to me.

Sincerely,

cc: Matt DelNero – Chief, WCB
