Subject: MB Docket No. 15-149 / Support

Dear Chairman Wheeler:

As the Sheriff of Riverside County, I am writing in support of the proposed merger between Charter Communications, Time Warner Cable and Bright House Networks.

Riverside County is America's 10th largest county with a census population over 2.3 million people and forecasted to double by 2060. This will make Riverside County the second largest in the State of California. The Sheriff's Department has over 4,000 employees serving the needs of the community which includes crime prevention, crime fighting and emergency services. Advancements in technology continually increases our ability to address those responsibilities.

This merger increases the ability of people in Riverside County to have affordable access to expeditious methods of sending and receiving information. Communication flow is an essential component for Law Enforcement response, investigation and Community Outreach.

For these reasons I am in support of New Charter.

Sincerely,

Stan Sniff
Sheriff, Riverside County
