RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

At Milwaukee Catholic Home, we deliver the highest level of services to older adults looking for care services. Rooted in our Catholic tradition, we value compassion, excellence, integrity and benevolence, and believe all of our residents deserve comfort and satisfaction in their later years. We support the merger of Charter Communications, Time Warner Cable and Bright House Networks because it would provide organizations like ours with the technology we need to bring quality care and enjoyment to our residents.

We have been a Time Warner customer for many years. The merger with Charter and Bright House would update the products we currently receive, and would keep prices at affordable rates. We are especially interested in New Charter's commitment to **complete a full digitization of TWC and BHN—freeing up spectrum that will allow for faster broadband speeds and more high-definition channels and On- Demand offerings.** We are looking forward to being able to provide our residents with cutting edge technology that will be easy to use for our senior residents.

We look forward to working with New Charter, and believe the company would make improvements to their technology and services. We ask that you join us and support the merger.

Sincerely,

David Fulcher
CEO, Milwaukee Catholic Home
