Re: WC Docket No. 12-375, *Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996 et al.*

Dear Mrs. Dortch,

Enclosed please find the signatures of 23,066 Demand Progress members that have signed on to the following language in support of lowering prison phone rates:

Last year the FCC took the courageous step of reforming the high cost of long distance prison phone calls, and now it must do the same for local calls. Ending price gouging by the prison telephone industry will provide fair pricing to inmates and their loved ones, making our communities safer and our families stronger.

We urge the FCC to finish the job by implementing the lowest possible rate caps for all local prison phone calls.
