Hello Jennifer,

I hope you had a wonderful holiday season! I'm sure you are quite busy playing catch-up, but I wanted to follow up on our request for extension on FRN 2693452 which was inadvertently omitted from the case number 22-857182. When last we spoke, you had indicated that you would file the request for extension anyway. The FRN in question has NOT been added to USAC's FRN extension list. We have not received a notification approving or denying this request, and I have no case number to use for follow up.

Please notify me ASAP as to what is happening as we only have a limited amount of time to file an request for waiver on a deadline date if that is what we will need to do.

Thanks so much for your assistance!

Good morning Jennifer,

I'm just following up to see what happened with our request for extension for FRN 2693452. It was the one which was inadvertently omitted from the case number above -22-857182, but you were going to see if the request could be processed anyway. (all of the emails below reference what took place).

Please let me know the status of the request and whether there is a case number that I can use for follow up in the future.

Thank you!

Vickie,
We will process the invoice deadline request for this FRN, however if the request is denied you will need to appeal that decision.

Thank you,

Hi Jennifer,

I sincerely apologize. I just reviewed my request and am only now realizing that FRN 2693452 for Verizon Wireless was not included in my original request for an extension deadline. I was new to the process this year and was confused by the fact that there had already been an authorized disbursement.

The 472 in question is for the months of May and June 2015 only. Is it possible to get an approval based on the fact that an error was made on the part of the consultant rather than the applicant, coupled with the fact that the service provider approved the invoice on Nov 9, 2015, and that the request is for the last two months of the funding year only?

Thank you for your consideration.
