Subject: Case 22-731206

Lisa,

After researching and looking at the forms we received, this the information.

On the first Form 500-1004325 received with postmark date of 2/18/2014, it was to extend the contract expiration date on both FRNS until 09/30/2014.

The second Form 500-1043375 with postmark date of 09/18/2014 only listed FRN-2375300 and was requesting a service delivery deadline extension request. It was dismissed because one had automatically been granted after a service substitution was filed. On this second 500 form we received, it did not ask for the contract exp. date to be change to 2015.

You can file a new Form 500 or have the option to file an appeal.
