Re:
63.71 Application of AT&T Ohio
and AT&T Long Distance

DOCKET FILE COPY ORIGINAL

The impact of the proposed discontinuance upon me could result in my death. As I am on a fixed income and cannot afford any ability to acquire reasonable substitute service. I am disabled and rely on my land-line telephone. I cannot call 911 on a cell phone due to location. The 911 call could be picked up a town over. As I am on oxygen via a trace. Therefore getting my call to the local 911 center is crucial time for me. I have used the 911 center and emergancy service was prompt. On a cell phone it would be delayed and deadly for me. My land line phone is my lifeline to the medical help I need promptly. As said without the landline, I would die due to not reaching the local 911 center.

Sincerly,
William Huddleson
