To whom it may concern: F.C.C.
We are very disturbed to hear talk of the possibility of taking off our favorite stations. We like R.F.D. the weather channel & H.S.T.V.
As farmers there is so much information that we need on RFD & weather. We listen each day to these stations. Examples are market prices, new products new ways of doing things. Keeping up with weather & news, especially for farming.
We love all the entertainment that we can get.
A few favorites are Larry's Country Diner, Joey + Rory, Midwest Country, trains and locomotives machinery Pete,
Fixer uppers. Love it or leave it.

Dear FCC

It's a shame that we have to write letters to save a T.V. station because they are giving the Public whole some entertainment.

I have Direct T.V. and to get the stations I want, I have multiple of the same stations. They were QVC, Hallmark; TLC HGTV and our local stations.

I am a senior citizen and do watch a lot of television since I lost my husband but I don't have a phone constantly in my hand you would think they would respect their senior citizens more They at least watch

Dear FCC, Proceeding Number 16-14

Our family watches RFD-TV on DIRECTV.

We appreciate the family oriented programing. I have a degree in Home Economics and am especially interested in the inforation about food production, marketing and what Country it comes from.

We also enjoy the entertainment, both new shows and reruns of old shows.

The networks are important but we need a variety of non-network chanels.

Sincerely,
Mary H. Russell

Some people are blessed with the necessities and needful food and money for their food and medicines. The less fortunate make do with what little they get from Soc. Security. Its not an easy way to go. We can't go to shows or vacations. We have a few flowers in our yard which we tend to when our arthritis is not acting up. We look forward to Larry's Country diner show. He brings a smile on our face and in our hearts. Hee Haw brings

back the years we laughed and looked forward to it coming on TV (for Free). Now we have to pay to see what we enjoy. There are so many elderly that enjoy RFD-TV. I am going on 72 and I love when they have the rodeo shows too. Please don't drop this channel for there are millions watching it. Its the only old time shows we get and enjoy.

God Bless You for helping us keep this channel on.

Time Warner Cable Co.

We are still able to buy RFD TV channel but so many big urban Co. are dropping it from their line up. My husband & I are both in our 80's, we watch this channel at least 50% of the time. It has a very good program line up, they are interesting and really like all the great music programs. I don't see all the violent, murder program and never hear the bad language used on the cable, music shows are very seldom showed.

I have a question, why do they want to drop this channel & then have a world channel on that not a word of English is spoken? Cable Companys shove many programs we never watch, that certainly being one, also jewelry channel, not something we would watch but pay for, it's in our pkg.

Do what you can to keep Verizon & other large companies from dropping R.F.D TV & other independent ones

Thank You
Carl & Muriel Arndt

We watch RFD-TV on Time Warner Cable.

Being senior citizens we watch RFD-TV regularly. They have so many programs that are very enjoyable for us and many other people too! Programs that simply CANNOT be found on other channels. After all you must understand that once you become to be in your 80's there are not many forms of entertainment you can participate in. Mobility becomes a problem. ONCE + FOR ALL stop fooling around with trying to do away with this wonderful channel. Bigger is not always better. Don't let big providers take away our favorite channel.

Thank You
