To whom it concerns—

TV programs have a place in our lives but we will only pay for the programs we want to watch & support.

Right now through Wish we have R.F.D - it's the main if not only station we watch - we enjoy all the programs it has - some topics might be a bit more of interest but always done great - learning new things.

You know we don't have to have TV - think that is often forgotten to address - we can pay for stations/programing we want or forget it and like read a book - play a game - Visit — remember those things.

We will support having

RFD - it's worth our time & money and we want to support all we can to keep it on air where we can have it in our home. Its much enjoyed & needed.

Please Keep RFD TV as
I watch it most of the time.
It is unfair to bundle into
a pkg. that I can't use and
cost more money. just so we
Can have RFD T.V. without
paying extra.
Just put RFD. into the
basic pkg.

To Whom it may concern!

I am writing to try and stop this nonsense of a few-big shots screwing the little guy. We are seniors and the only reason I stopped Comcast was to get Direct-T.V. because someone told my husband about R.F.D. T.V. He likes all country music on weekends I found I love Texas Country Reporter, letters from Nevada alot of things I didn't know about our country. I think its very information - cotton fields of Georgia & Who doesn't love Ray Stevens, please help us. if it goes down so does Direct-T.V. When my contract is up this summer Thank alot

Dear Sirs;

I'm writing in support of independent channels, like RFD & others, to be sent to the FCC. I have Direct TV which has inform me they will continue to carry all independent channels.

RDTV should be allowed to upgrade to High definition, ~~[illegible]~~ rest of the channels broadcast in. It should be no difference.

We in rural America need our voices heard not just the big cities, with their one-sided ideas and view-points. When do they think their food is grown; it just doesn't appear on their local grocery store shelves by the good fairy.

If they want to start a boycott of this type they might get a little hungry if food isn't shipped east. All people should have the chance to choose what they watch & what carries to subsidize it.

DirectTV has a very diversified programe, something for everyone. They satisfies with them.

Thank you Patrick for your concern and making everyone aware of this and for the link on your web-site.

I watch this channel 65% of the time also the other independent channels.

Also the religious channels, which DirectTV carry.

Keep up the good work.

Dear Sirs:

I am a subscriber to Direct Satellite T.V.

I am writing to ask you to continue to support independent programing, especially RFD-TV. This is a very special and much needed area for our country. It is the only channel specially designed for rural America. Rural living is vital for urban necessities. Just as civilian life is quite different from military life, it is the same difference for rural America. These vital people go to work their profession so that the city dweller can go to work in a suit.

(2)

Please keep RFD-TV and other vital independent programs because they are refreshing, informing choices from the National and International news.

Trusting we are still the United States of America for EVERYONE,

Thank you.

Dear FCC (16-41)

I am a disabled senior citizen, my sister who lives in another part of the state, both watch RFD T.V., and talk on the phone about how much we enjoy it.

We were brought up on a farm, so we both realize how important the agriculture shows are.

I watch RFD on Time Warner Cable. Awhile back they removed RFD, without warning from my package. I felt lost and alone without my entertainment. In order to get it put back on my package, I had to pay extra,

and that is hard to do on a fixed income.

I appreciate the opportunity to voice my opinion, and let you know how strongly I feel about keeping R E D on, its a must have.

Sincerly,
Judy Gunnell

Please don't take RFD-TV off the TV. That is the best station on TV. They keep raising our rates for stations that aren't worth looking at. They rather put on sex programs that people don't like than keep on good programs that people like. I wished they would put Bible challenge back on, minute to win it & other good programs on the Game show station instead of skin it with tattoo & that elevator program. If you want RFD-TV you have to choose the group that has it in it, and most of the other channels in that group, you don't like or don't watch. You have to pay all that extra money just to get RFD-TV. I would like to see more music shows during the week at night and during the day. We love country music. Please don't take it off.

Thank you for your support in

trying to keep it on for us.
Thanks again.

I think they should leave RFD alone. We pay more to get it already. We are on Direct TV. There is alot of Junk programs we don't even listen to so dirty and terrible language we Sr Citizens wish

DOCKET FILE COPY ORIGINAL

they would not put on our package deal - The language and the way they dress and do in bed isn't to our liking - Pray they let the RFD with the music and farm reports and weather is great
