I would like to add my thoughts on all the Cable stations that are dropping RFD, Outdoor stations + the weather Channel RFD means a lot to Country + farm people, senior citizens - even people that don't live in the Country but like shows on horses, rodeos + Country music. There used to be a lot of shows that had Country music + etc. RFD is decent - I would let my grand-children watch, All we watch is the weather Channel, sport channels + the networks - news only. all the other channels, have so much sex, violence + etc. No wonder there are so many shootings, violence + etc. Anyway we love RFD. We would hardly need a TV if [illegible]. DOCKET FILE COPY ORIGINAL

Dear F.C.C. Mar. 20, 2016

You are very important in this situation, R.F.D is very important to us the rural people. We have in the country need this type of service for our farmers (yours) especially those who have cattle & are interested in the prices for times to sell.

You may feel you have no need for any meat, vegetables that is important to the entire country. How do you go to the restaurant & order that big fat steak. It just doesn't happen on the shelf. You not thinking or don't care. It has to be fed & cared for. The music shows are so wonderful.

Please reconsider your decision!!

Dear FCC,

I am writing about 16.14. Quality family programs need to be in all areas of America. Do Not let the big Cable Channels "Root out" the small cable channels: This is America. I receive RFD-TV from an independent provider in NorthWest Kansas, Nex-tech TV from Lenora, KS. Rural and Urban people need to know how food and fiber products are produced. I heard a comment one time that "we don't need farmers, we get our food from the store," not realizing how the food got to the store.

DOCKET FILE COPY ORIGINAL

I am a farm wife. Grew up on a wheat and livestock ranch in Northwest Kansas. I still live on the farm that my father purchased.

The RFD-TV network allows country programming of all aspects. I especially like California Bountiful" as I know I will never be able to travel to see food grown there. I am an avid gardener, so appreciate seeing what can be grown in other parts of our country.

FCC you need to realize that farmers and ranchers share their vacation by

OVER

giving more, than they take from the world. We belsve that our lives are measured by what we have done for others and by this standard we fear no judgement. Rural America shapes our economy!!

Sincerely

Marilyn Kiggs Rowlison

To The FCC 1641

I am writing to you in reguard to Docet no 1641. We are lucky to have RFD on our Dish network. My son has a antena and since Independent station were dropted He can no longer get RFD. We watch RFD a lot. Really enjoy the Music and [illegible]. The grandkids and Great Grandchildren enjoy the tractors & Machenary, and the horse shows. I my self am a quilter, I learned a lot of quilting tips and some shortcuts from the quilting shows. My son and a neighbor were in Neb. for the tractor Parade that got into the Mcgine Book of Records, so, we enjoyed that on RFD, TV also They drove in the parade. They also got to Meet Patrick and Max Armstrong. Please keep the RFD on so all that get it can Keep it. It's very good for old & young also Sincerely

The Joe Rinkenberger

P.S. I also like the Parades and Christmas at Benson. Also the 7-7A Programs.

Hope you can get RFD back on for the people that lost it

Thank You.

Regarding 16-41

Dear FCC,

I would be very disappointed if we lost RFDTV. I love all aspects of the programming and all that work there which seem happy to be working there.

I'm eighty three years old, grew up on the farm and I'm still interested in farming.

They have many interesting programs pertaining to horses. My dad used to ride broncos in Oklahoma.

I watch RFD nearly every night because they have a nice variety of programs.

It's a channel that anyone can watch and not be embarrassed which is more than one can say about nearly all others.

Even kids can watch... there is no swearing!

Since I switched to Directv in Nov. I now can watch RFD.

DOCKET FILE COPY ORIGINAL

My brother who lives in Sierra Vista Az. also watches RFD and every time we talk on the phone he always mentions something about some program.

Anyway RFD is very important to me.

Dear Sirs

RFD, Weather Channel and other independant stations are the only ones I can get that give me the information and entertainment that I enjoy. They are also the few left that aren't over flowing with violence, immorality and vulgar language. I grew up on a farm in Missouri and raised many different animals until a few years ago. I am 75 years old and now the only enjoyment I get from livestock is to watch RFD. Also we were a rodeo family in a small way. RFD is the only way I can stay connected with Rodeo.

I am only one person, but I feel there are many, many, more just like me out there in the viewing audience that will be affected by all these big cable stations and there 3 piece suits deciding what will been available for us to watch.

I am basicly house bound and watching weather channel gem hunters and most of the shows on RFD are the only connect with the outside real world, not sex and drugs on every door steps

Thank You
