Immediately following the 700 MHz RPC meeting, the 800 MHz RPC will convene at the same location.

The agenda for the 800 MHz meeting includes:

Both Region 33 RPC meetings are open to the public. All eligible public safety providers in Region 33 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.
